President Shabazz: That's the - your motion is not part of the order of the day and we are - it's not in order to discuss at this meeting.

Council Member Gray: Why not?

President Shabazz: Because this is the City Council legislative business agenda and that was a Committee of the Whole meeting and we would have to pick that up at another Committee of the Whole meeting.

Council Member Gray: Well, I make a motion that we have a Committee of the Whole meeting...

President Shabazz: There's no motion to be made Madam dearest. I'm asking for any legislation to be presented.

Council Member Gray: I want to know why I can't.

President Shabazz: Because it's not on the agenda.

Council Member Gray: Is that a rule?

President Shabazz: Yes.

Council Member Gray: So, I would like to make a motion that we have a Committee meeting of the Whole...

President Shabazz: It's not on the agenda ma'am.

Council Member Gray: ...to make a motion for another meeting...

President Shabazz: Not...

Council Member Gray: ...to be on the agenda?

President Shabazz: We're on the legislative business, we're following the agenda and I'm calling on you to present your legislative business.

Council Member Oliver: Yes, Madam President, I have a Resolution to present on your behalf.

On behalf of President Shabazz, Council Member Oliver presented Resolution No. 19-036 (Agenda #4685) as follows:

WHEREAS, the Department of the Interior's Bureau of Ocean Energy Management has initiated the process to develop a National Outer Continental Shelf Oil and Gas Leasing Program for 2019-2024. This plan could include expanding offshore oil drilling in the Arctic and in the Atlantic, including areas off the coast of Delaware; and

WHEREAS, the Department of the Interior has also endorsed seismic airgun blasting as a technique to find oil and gas deposits under the ocean floor; and

WHEREAS, seismic airguns shoot blasts of compressed air into the seafloor, creating noise that can be heard up to 2,500 miles from the source and negatively impacting the marine life that rely on sound for communication and survival; and

WHEREAS, offshore oil drilling activities also pose a significant risk of explosions or spillage, as witnessed by the Deepwater Horizon Oil Spill in 2010, that could threaten Delaware's economy and natural resources; and

WHEREAS, potential oil spills, leaks, drilling fluids and disrupted marine life could negatively impact Delaware's beaches, bays, shorelines and water quality. This could deter visitors from Delaware and severely impact our coastal economy; and

WHEREAS, coastal tourism and industry accounts for 59,000 jobs and approximately \$7 billion in economic production in Delaware; and

WHEREAS, the potential implications of seismic airgun blasting and offshore oil drilling may impact the City of Wilmington. The Port of Wilmington has been ranked as the top North American port for imports of fresh fruit and fruit juice and handles approximately 400 ship-calls annually with an annual import and export of more than 6.8 million tons. The exploration and development of oil and gas off the mid and South Atlantic coast may negatively impact the services provided by the Port of Wilmington; and

WHEREAS, expanding fossil fuel production is counter-productive to reducing carbon emissions and addressing the long-term energy needs of our country; and

WHEREAS, the City of Wilmington endeavors to be a good steward of the state's environment and resources; and

WHEREAS, in order to combat climate change and our energy needs we need to focus on pursuing non-polluting sources of renewable energy that pose less risk to our coastal environments and economic wellbeing.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF WILMINGTON, that the Council opposes offshore oil drilling and seismic airgun blasting in the mid-Atlantic Ocean and encourages the Department of the Interior to pursue renewable sources of energy to meet our energy needs.

WHEREAS, technology is rapidly changing and requires an adaptive and evolving approach to planning. The City of Wilmington desires to create Smart City initiatives that benefit its diverse community members and encourage more synergy within the City and State; and

WHEREAS, a major initiative that would help establish Wilmington as a leading Smart City would be to provide Wilmington residents with the next generation of wireless technology through the adoption of mobile 5G service. 5G service is about 20 times as fast as the current 4G LTE service, which would provide shortened delay times in streaming and downloading; and

WHEREAS, in addition to quicker speed, 5G service can also be used to integrate video surveillance to provide real-time monitoring of the City. This could lead to enhanced public safety, transportation and energy use; and

WHEREAS, Smart City initiatives can also provide additional revenue streams to the City of Wilmington. A recent report found that Smart City initiatives throughout the world are projected to generate approximately \$100 billion in revenue in utilities by 2027; and

WHEREAS, many cities that are considered Smart Cities have established access to 5G service, including New York, Atlanta, Louisville and Raleigh; and
