The Contractor’s proposal will define the types of services that will be conducted by subcontractors, if any services are intended to be subcontracted. The Contractor will be responsible for arranging and managing subcontracted services and will assume full responsibility and liability for the quality of each and every subcontractor’s work. Subcontracted work will be reimbursed according to the hourly rates bid or under a negotiated not-to-exceed cost for a job. Subcontracted services shall comply with the requirements of this RFP. Subcontractors must be approved by the City prior to performing any work. The City may request three (3) quotes for all subcontracted work. In the event that subcontracted services exceed \$100,000 in value for a specific project, the allowable markup shall not exceed five percent (5%) unless otherwise agreed to by the City in writing. Project management fees for the Contractor shall be derived from the five percent (5%)

markup. Invoices to the City including subcontractors shall include copies of the respective subcontractor's invoices showing the invoiced price and hourly rates of the subcontractor. All invoices submitted to the City must also highlight the percentage of the overall contract value that has been paid to DBE firms on a monthly and a contract to date basis."
