**Sponsor:** 

Council Member Cabrera WHEREAS, the City of Wilmington (the "City") is an "Entitlement Community" for purposes of the Community Development Block Grant Program (the "CDBG Program"), the HOME Investment Partnerships Program (the "HOME Program"), the Emergency Solutions Grant Program (the "ESG Program"), and the Housing Opportunities for Persons With AIDS Program (the "HOPWA Program"); and

WHEREAS, the United States Department of Housing and Urban Development ("HUD") regulations require a consolidated application process for funds for the CDBG Program, the HOME Program, the ESG Program, and HOPWA Program (the "Consolidated Plan"); and

WHEREAS, City Council desires for the City to participate in the Consolidated Plan; and

WHEREAS, City fiscal year 2026 corresponds with federal fiscal year 2025; and

WHEREAS, City Council's Community Development and Urban Planning Committee has completed its review of the proposed City fiscal year 2026/federal fiscal year 2025 annual action plan (the "CFY26/FFY25 Annual Action Plan") pursuant to a determination that such review should be separate from the enactment of the City fiscal year 2026 annual operating budget; and

WHEREAS, the Community Development and Urban Planning Committee and the Mayor's Office have reached a consensus with respect to specific categories of spending and the amount of funds to be allocated to each such category, as set forth in the CFY26/FFY25 Annual Action Plan, a copy of which is attached hereto as Attachment "A" and incorporated herein; and

WHEREAS, the Community Development and Urban Planning Committee and the Mayor's Office have agreed further that any substantial changes as defined in the Consolidated Plan regulations in the aforesaid categories and funding amounts will be reviewed in full by the Mayor's Office with the Committee before implementation; and

WHEREAS, as a HUD entitlement community, the City is required to prepare a fiveyear consolidated plan in order to implement any federal programs that fund housing, community development, and economic development within the community; and

WHEREAS, the City has prepared a consolidated plan for City fiscal years 2026-2030/federal fiscal years 2025-2029 (the "New Consolidated Plan") identifying the goals and objectives for the use of federal funds for the next five-year period, a copy of which is attached hereto as Attachment "A" and incorporated herein; and

WHEREAS, as a HUD entitlement community, the City is required to prepare and update, as necessary, a citizen participation plan that outlines how the City will engage citizens in the planning and decision-making processes regarding housing and community development programs funded by HUD via the CDBG Program; and

WHEREAS, the City would like to adopt an updated citizen participation plan (the "Updated Citizen Participation Plan"), a copy of which is attached hereto as Attachment "B" and incorporated herein; and

WHEREAS, the Community Development and Urban Planning Committee has completed its review of the New Consolidated Plan and the Updated Citizen Participation Plan; and

WHEREAS, the referenced HUD regulations require that funding applications for the above-referenced funding sources must meet the public participation requirements of the Consolidated Plan, and the City's application for its CFY26/FFY25 Annual Action Plan, the

New Consolidated Plan, and the Updated Citizen Participation Plan have met such requirements.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF WILMINGTON that Mayor John Carney, or his designee, is hereby authorized to execute and submit to HUD the CFY26/FFY25 Annual Action Plan, the New Consolidated Plan, and the Updated Citizen Participation Plan, copies of which are attached hereto as Attachments

"A" and "B", respectively, and incorporated herein.

**BE IT FURTHER RESOLVED** that John Carney, or his designee, is hereby authorized to certify to such matters as the Secretary of HUD may require with the applications, to provide additional information as may be required, and to administer and expend such funds as are received or become available in accordance with the Consolidated Plan regulations and the regulations governing the CDBG Program, the HOME Program, the ESG Program, and the HOPWA Program.

Passed by City Council,

| ATTEST: |            |  |

# **Executive Summary**

### ES-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

#### 1. Introduction

Promulgated by the U.S. Department of Housing and Urban Development (HUD) for the City of Wilmington to receive federal funding for affordable housing and community development initiatives benefitting primarily low- and moderate-income persons. This Con Plan consolidates into a single document the planning and application requirements for the Community Development Block Grant (CDBG) program.

Con Plans must be prepared and submitted to HUD every three to five years. The City of Wilmington uses a five-year Con Plan cycle; this plan covers fiscal years 2025-2029. The purpose of the City's Con Plan is to:

- Assess the City's affordable housing and community development needs;
- Analyze the City's housing markets;
- Articulate the City's priorities, goals, and strategies to address identified needs; and
- Describe the actions the City will take to implement strategies for affordable housing and community development.

The Con Plan for FY 2025 – FY 2029 provides data on trends and conditions related to the City's current and future affordable housing and community development needs. The analysis of this data has been used to establish priorities, strategies, and actions that the City will undertake to address these needs over the next five years. Annually, the City will develop its Action Plan in which it describes the planned investment of federal resources to implement specific activities.

This Plan considers the increasing importance of identifying and prioritizing the most critical needs to be addressed with CDBG HOME, ESG, and HOPWA Program funds.

The Consolidated Plan consists of three major sections: a housing and community development needs assessment, a housing market analysis, and a strategic plan which identifies those priority housing and community development needs and strategies that the County plans to address with the available HUD resources over the next five years.

Data in the needs assessment, market analysis, and strategic plan sections of this plan were drawn primarily from HUD's Comprehensive Housing Affordability Strategy (CHAS) data set, which is a special tabulation of 2016-2020 American Community Survey (ACS) data from the Census Bureau. The CHAS data is a fixed set of data in pre-populated tables. The CHAS data describes housing problems, such as overcrowding or incomplete kitchen and/or plumbing facilities, as well as cost burden, which occurs when a household pays more than 30% of its gross income on housing costs. Extreme cost burden occurs when a household pays more than 50% of its gross income on housing costs.

The City of Wilmington was allocated \$2,261,378 in CDBG funds, \$477,885.02 in HOME funds, \$197,824 in ESG, and \$944,530 in HOPWA in FY 2025.

# 2. Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview

Housing needs among residents of the City of Wilmington were determined by analyzing housing problems by income level, tenure, and households with special needs. For the Con Plan, sources included the Comprehensive Housing Affordability Strategy (CHAS) dataset, which is based on the 2016-2020 American Community Survey Five-Year Estimates. This source analyzes households with one or more housing problems (overcrowding, lacking adequate kitchen or plumbing facilities), and households experiencing cost burden and severe cost burden.

The most significant housing issue identified was cost burden, defined as spending between 30-50% of household income on housing costs such as mortgage and rent payments, and severe cost-burden, defined as households spending more than 50% of their income on housing costs. According to CHAS data, 39.2% of households in the City are cost burdened, particularly households with incomes between 30-80% AMI. An even higher proportion of Wilmington households are severely cost-burdened, consisting 20.8% of households, particularly households with incomes between 0-50% AMI.

To address the identified housing needs, the City has established the following goals and outcomes to be achieved through the investment of its CDBG, HOME, ESG, and HOPWA resources in the first year. Please note that while there are less goals than the previous five-year consolidated plan, they have all been consolidated for simplicity's sake and still remain represented.

| Goal Name                            | Goal Outcome Indicator   |  |
|--------------------------------------|--|--|
| Planning/Administration              | Other: 4 Other   |  |
| Provide Public Services              | Public Service activities other than Low/Moderate Income         |  |
| Provide Public Services              | Housing Benefit: 1,181 persons                                   |  |
| Improve Public Facilities &          | Public Facility or Infrastructure other than Low/Moderate Income |  |
| Infrastructure                       | Housing Benefit: 1,320 persons                                   |  |
|                                      | Rental Units rehabilitated: 32 housing units                     |  |
| Increase Access, Supply & Quality of | Homeowner Housing Added: 7 housing units                         |  |
| Housing                              | Homeowner Housing Rehabilitated: 57 housing units                |  |
|                                      | Direct Financial Assistance to Homebuyers: 15 households         |  |
|                                      | Public Service activities other than Low/Moderate Income Housing |  |
| Provide Housing/Services to          | Benefit: 1,600 persons   |  |
| Homeless & At-Risk                   | Tenant-based rental assistance/Rapid Rehousing: 240 households   |  |
| Homeless & At-Misk                   | Homeless Person Overnight Shelter: 849 persons                   |  |
|                                      | Homelessness Prevention: 238 persons                             |  |
| Provide Housing/Services to HIV/AIDS | Tenant based rental assistance/rapid rehousing: 66 households    |  |
| Population                           | HIV/AIDS Housing Operations: 16 households                       |  |

# 2. Evaluation of past performance

The summary of past performance reported below was taken from the City's most recently completed Consolidated Annual Plan Evaluation Report completed for fiscal year 2023 and submitted to HUD. The numbers reflect progress made toward the 2020-2024 Consolidated Plan during the first four years of the plan.

| Goal Name  | Goal Outcome Indicator   |
|--|--|
| Activities for eligible youth and families                   | Public service activities other than Low/Moderate Income Housing Benefit: 5,919 persons assisted   |
| Housing/services<br>to other special<br>needs<br>population  | Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit: 4,159 persons assisted Public service activities other than Low/Moderate Income Housing Benefit: 44,399 persons assisted Public service activities for Low/Moderate Income Housing Benefit: 33 households assisted Homelessness Prevention: 34 persons assisted |
| Housing/services<br>to the HIV/AIDS<br>population            | HIV/AIDS Housing Operations: 480 households housing units  |
| Housing/services<br>to the homeless<br>and near-<br>homeless | Public service activities other than Low/Moderate Income Housing Benefit: 4,561 persons assisted Tenant-based rental assistance / Rapid Rehousing: 641 households assisted Homeless Person Overnight Shelter: 7,153 persons assisted Homelessness Prevention: 3,066 persons assisted   |
| Improve public facilities                                    | Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit: 74,963  |
| Improve public infrastructure                                | Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit: 207,895 Buildings Demolished: 2 buildings   |
| Improve quality of existing housing stock                    | Public service activities other than Low/Moderate Income Housing Benefit: 17 persons assisted Rental units rehabilitated: 54 household housing units Homeowner Housing Rehabilitated: 103 household housing units  |
| Increase supply<br>of existing<br>housing stock              | Rental Units Constructed: 19 household housing units Homeowner Housing Added: 5 household housing units Direct Financial Assistance to Homebuyers: 24 households assisted Buildings Demolished: 11 buildings   |

#### 4. Summary of citizen participation process and consultation process

**Stakeholder Interviews** – A series of six stakeholder meetings and interviews were conducted between January 28-30, 2025, in partnership with New Castle County to discuss issues and opportunities related to housing and community development needs. Individuals representing government and policy makers, nonprofit organizations, affordable housing providers, and other interested parties were invited to participate to ensure that as many points-of-view as possible were heard. Participants are listed in PR-10.

**Public Needs Hearing** – One public needs hearing was held on January 16<sup>th</sup>, 2025, virtually to educate residents and organizations about the CDBG programs and obtain input on housing and community development needs.

**Web-based Citizen Survey** - The City conducted a web-based survey for the general public through January and February 2025, generating 17 responses in total. Questions focused on housing and community development needs.

Consolidated Plan Public Comment Period – A draft of the Consolidated Plan for FY 2025-2029 and the Annual Plan for FY 2025 was placed on public display for 30 days beginning June 2 through July 3, 2025.

**Public Hearing** – The City held a public hearing on June 23, 2025, at the City Offices located at 800 N French Street in conjunction with the RE&H Committee Meeting to obtain final comments on the proposed Consolidated Plan for FY 2025-2029 and the proposed use of funds for FY 2029.

#### 5. Summary of public comments

Major needs highlighted during the public participation process include:

#### **Affordable Housing**

- New construction is expensive and time-consuming, making it inaccessible to many Wilmington residents and difficult for developers.
- There is a need to rehabilitate vacant, dilapidated properties in the city and bring them up to code.
- However, stakeholders report that it is difficult to get work done on these properties due to red tape and permitting
- There is a lack of workforce housing for workers like teachers, daycare workers, and police cadets.
- HUD FMRs may be too low DSHA would be willing to offer more if it could alleviate some of the housing problems for vulnerable populations

#### **Homeless and Special Needs Services**

- Populations emphasized by stakeholders that are most commonly at-risk of homelessness include youths aging out of the foster care system, young adults, and unaccompanied youth; young parents and families; justice-involved individuals; survivors of domestic violence; the elderly; and persons with HIV/AIDS.
- Challenges that these populations commonly face include poor credit history, criminal records, lack of work-life balance due to lack of childcare services and after school programs, and accessible healthcare.
- However, there are limited resources available that are expected to be further
  constrained with homelessness being on the rise in Wilmington and the wide number of
  supportive services required for specific populations.

#### **Workforce Development**

- The lack of education, training, and qualifications are major barriers for many of the identified populations that are at-risk of homelessness. This also includes acquiring a driver's license.
- High-barrier groups include youths and justice-involved individuals due to lack of training/experience and criminal history.
- Partnering with institutions or agencies that can provide professional growth and are open to working with high-barrier groups would be helpful to alleviate the challenges they face
- There is a need for digital literacy programs for senior citizens as finding and connecting them to resources becomes increasingly more digitalized.

#### **Improved Public Infrastructure Needs**

- There is a need for healthier neighborhoods. While many residents consider Wilmington to be relatively walkable, there is an need for better roads, sidewalks, and access to grocery stores.
- Areas in need of these public infrastructure improvements include Riverside, Eastside,
   Westside, and Bridgeside.
- There is a need for improved sanitation and recycling.

#### 6. Summary of comments or views not accepted and the reasons for not accepting them

All comments and views were accepted. Comments outside the scope of the plan were not addressed.

#### 7. Summary

In summary, the Consolidated Plan and Annual Action Plan have been developed with community input and reflect the needs of the City.

# **The Process**

# PR-05 Lead & Responsible Agencies 24 CFR 91.200(b)

1. Describe agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source

The following are the agencies/entities responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

| Agency Role         | Name       | Department/Agency             |
|---------------------|------------|-------------------------------|
|                     |            |                               |
| CDBG Administrator  | WILMINGTON | Department of Real Estate and |
|                     |            | Housing                       |

# PR-10 Consultation – 91.100, 91.110, 91.200(b), 91.300(b), 91.215(I) and 91.315(I)

#### 1. Introduction

The City of Wilmington developed an outreach effort to maximize input from a large crosssection of stakeholders. The outreach effort included public meetings, stakeholder meetings, published meeting notices, and a web survey conducted in both English and Spanish.

Several housing, social service agencies, and other organizations serving the City of Wilmington were consulted during the development of this Consolidated Plan. The City held stakeholder meetings from January 28-30, 2025. Participants included affordable housing providers, neighborhood organizations, homeless and social service providers, and city staff members.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I)).

The City of Wilmington encourages public communication and agency consultation to demonstrate its commitment to identifying priority needs and engaging the participation of citizens, public agencies, and nonprofit organizations in a positive and collaborative manner. A list of stakeholders and affordable housing providers was developed and included public agencies and private nonprofit organizations whose missions include the provision of affordable housing and human services to low- and moderate-income households and persons. These stakeholders were invited to participate in group interviews held for the purpose of developing the Con Plan. The list of stakeholders is included in the Citizen Participation Comments section.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness

The Delaware Continuum of Care and Delaware HIV Consortium both have interagency agreements with the City of Wilmington to manage a select amount of federal entitlement activities supported by ESG and HOPWA, respectively. Close cooperation exists between the City, the CoC, the HIV Consortium, local nonprofit agencies, homeless service providers, and regional organizations to enhance coordination.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards and evaluate outcomes, and develop funding, policies and procedures for the administration of HMIS

Service providers that work with persons experiencing homelessness participated in stakeholder meetings as described above. As mentioned previously, The Delaware Continuum of Care has an interagency agreement with the City of Wilmington to manage a select amount of federal entitlement activities supported by ESG. Homeless services funded by CDBG dollars follow the priorities and review process set by the Delaware CoC when evaluating CoC funding from HUD.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdictions consultations with housing, social service agencies and other entities

Table 2 – Agencies, groups, organizations who participated

# Identify any Agency Types not consulted and provide rationale for not consulting

All relevant entities were considered for consultation.

#### Other local/regional/state/federal planning efforts considered when preparing the Plan

| Name of Plan                                | Lead Organization                       | How do the goals of your<br>Strategic Plan overlap with the<br>goals of each plan? |
|---|---|--|
| Wilmington 2028 –<br>Comprehensive Plan     | City of Wilmington                      | The affordable housing and anti-poverty goals and strategies of both plans align.  |
| Comprehensive Economic Development Strategy | Delaware Economic<br>Development Office | Economic and workforce development strategies of both plans align.                 |

Table 3 – Other local / regional / federal planning efforts

Describe cooperation and coordination with other public entities, including the State and any adjacent units of general local government, in the implementation of the Consolidated Plan (91.215(I))

In accordance with 24 CFR 91.100(4), the City of Wilmington will notify adjacent units of local government of the non-housing community development needs included in its Consolidated Plan. The City will continue to interact with public entities at all levels to ensure coordination and cooperation in the implementation of the Consolidated Plan and thereby maximize the benefits of the City's housing and community development activities for the residents being served.

#### Narrative (optional):

#### PR-15 Citizen Participation – 91.105, 91.115, 91.200(c) and 91.300(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

**Stakeholder Interviews** – A series of six stakeholder meetings and interviews were conducted between January 28-30, 2025, in partnership with New Castle County to discuss issues and opportunities related to housing and community development needs. Individuals representing government and policy makers, nonprofit organizations, affordable housing providers, and other interested parties were invited to participate to ensure that as many points-of-view as possible were heard. Participants are listed in PR-10.

**Public Needs Hearing** – One public needs hearing was held on January 16<sup>th</sup>, 2025, virtually to educate residents and organizations about the CDBG programs and obtain input on housing and community development needs.

**Web-based Citizen Survey** - The City conducted a web-based survey for the general public through January and February 2025, generating 17 responses in total. Questions focused on housing and community development needs.

**Consolidated Plan Public Comment Period** – A draft of the Consolidated Plan for FY 2025-2029 and the Annual Plan for FY 2025 was placed on public display for 30 days beginning June 2 through July 3, 2025.

**Public Hearing** – The City held a public hearing on June 23, 2025, at the City Offices located at 800 N French Street in conjunction with the RE&H Committee Meeting to obtain final comments on the proposed Consolidated Plan for FY 2025-2029 and the proposed use of funds for FY 2029.

#### **Needs Assessment**

#### NA-05 Overview

#### **Needs Assessment Overview**

The City of Wilmington, Delaware is committed to addressing the many housing and community development needs of its residents through a strategic five-year Consolidated Plan. This overview outlines the key needs identified through community engagement, data analysis, and stakeholder consultations, focusing on housing, economic development, public services, and community infrastructure.

A comprehensive community engagement process, including surveys, public meetings, and focus groups, has been conducted to ensure that the needs assessment reflects the voices of Wilmington residents. Input from community organizations, local government agencies, and residents has been integral in shaping the priorities outlined in this overview.

This needs assessment serves as a foundation for Wilmington's 5-Year Consolidated Plan, guiding the allocation of HUD resources to address pressing challenges in the community. By prioritizing affordable housing, economic development, public services, and infrastructure improvements, the city aims to foster a more equitable and thriving environment for all residents. Ongoing collaboration with community stakeholders will be essential to implement effective strategies and measure progress over the next five years.

Data in this section was drawn primarily from HUD's Comprehensive Housing Affordability Strategy (CHAS) data set, which is a custom tabulation of 2016-2020 American Community Survey (ACS) data from the Census Bureau. Supplemental data were drawn from the 2017-2021 CHAS and other sources to provide additional context when needed. The CHAS data describes housing problems, such as overcrowding or incomplete kitchen and/or plumbing facilities as well as cost burden/severe cost burden.

Where the HUD tables below report area median income (AMI), they refer to HUD Adjusted Median Family Income (HAMFI). HAMFI differs from AMI in that HAMFI adjusts for family size and are calibrated for a four-person household. HAMFI adjusts larger households up by adding 8% for each person above four and subtracting 10% for each person below four. AMI does not have this qualification.

# NA-10 Housing Needs Assessment - 24 CFR 91.205 (a,b,c)

#### **Summary of Housing Needs**

High housing costs reduce economic opportunities and access to prosperity, especially among lower-income households in Wilmington. Real incomes in the area have declined while housing costs have risen, resulting in an increase in the need for affordable housing options.

| Demographics  | Base Year: 2009 | Most Recent Year: 2020 | % Change |
|---------------|-----------------|------------------------|----------|
| Population    | 71,550          | 70,655                 | -1%      |
| Households    | 28,880          | 29,710                 | 3%       |
| Median Income | \$40,465.00     | \$45,139.00            | 12%      |

Table 12 - Crowding Information - 2/2

#### Describe the number and type of single person households in need of housing assistance.

According to the 2019-2023 ACS 5-year estimates, 15,140 households in Wilmington were comprised of people living alone, consisting of 47.2% of all households in the city. The median income of one-person households was \$38,053. An affordable rent at this level would be roughly \$963, but there were only approximately 5,423 occupied housing units paying below this level of rent in 2023. This means that there are at least 9,717 single person households paying more than 30% of their income towards housing costs. These households are likely in need of housing assistance.

# Estimate the number and type of families in need of housing assistance who are disabled or victims of domestic violence, dating violence, sexual assault and stalking.

In Wilmington, families experiencing housing insecurity often face compounded challenges, particularly those with disabilities and those who are victims of domestic violence, dating violence, sexual assault, and stalking. These groups require targeted assistance to secure stable housing and support services.

Families with Disabilities:

According to 2019-2023 ACS Five Year Estimates, 12,382 individuals over the age of 18, or 17.9% of the population, report having a disability. Many of these individuals likely need housing assistance due to challenges related to affordability and accessibility

#### Victims of Domestic Violence:

YWCA provides emergency and transitional housing for victims of domestic violence through their Home Life Management Center. According to their 2021 annual report, 363 homeless individuals were sheltered and provided life skills training to support themselves while stabilizing their income along with individual case management. Of these individuals, 92% transitioned from being unhoused to becoming self-sufficient and positioned for upward mobility.

Additionally, 8,489 survivors of domestic or sexual violence used their services in 2021. Services include a 24/7 sexual assault helpline, medical and legal accompaniment, trauma-informed counseling, case management, support group aftercare services, and a racial and social justice program. Some of these services are based in nearby Newark but are available to all New Castle County residents, including Wilmington.

#### What are the most common housing problems?

The most common housing problem in Wilmington is housing cost burden, particularly for those with housing cost burdens greater than 50% of income. A greater number of renter-occupied homes are cost burdened than owner-occupied homes. Over 40% of the housing units in Wilmington were built before 1940. An older housing stock generally indicates a need for more maintenance and housing rehabilitation to maintain quality housing conditions. In addition to cost burden and age, a large number of households had zero or negative income, indicating difficulties finding employment in the most vulnerable populations.

#### Are any populations/household types more affected than others by these problems?

The percentage of households experiencing cost burden or severe cost burden is highest for the lowest income brackets (0-50% AMI) and decreases as income increases. Renter households are also more likely and owner-occupied households to be cost burdened. Elderly owner-occupants, small related households, and other non-family household, comprise the majority of those who experience cost burden and severe cost burden for both renters and homeowners.

Describe the characteristics and needs of Low-income individuals and families with children (especially extremely low-income) who are currently housed but are at imminent risk of either residing in shelters or becoming unsheltered 91.205(c)/91.305(c)). Also discuss the needs of formerly homeless families and individuals who are receiving rapid re-housing assistance and are nearing the termination of that assistance

HMIS data from the Wilmington PJ show that 105 people entered homeless situations from institutional settings, while 26 people exited into institutional settings and an additional 338 people moved into temporary housing accommodations, which may indicate a greater risk of returning to homelessness. Of these individuals, the demographic information is as follows:

- 34% are under 25 years of age, 50% are between the age of 25-54, 16% are over the age of 55;
- 46% are male, 54% are female
- 38% have a disabling condition and of those who have a disabling condition:
  - o 29% have a physical disability;
  - o 33% have a substance use disorder; and
  - 12% have a developmental disability.
- 72% are Black/African American/African, 27% are White, and less than 1% are Native Hawaiian/Pacific Islander or Indigenous/Alaska Natives
- 5% are veterans

Stakeholders also report that half of people served through a homeless assistance program reported having at least one disability. Additionally, they have observed that the number of chronically homeless persons and elderly homeless are rising annually.

Formerly homeless persons who receive rapid re-housing assistance, and are nearing termination of their funds, are at risk for homelessness. However, this risk is reduced by case management, budget counseling and other social services that are offered to address risks to stability during the time they received funding.

If a jurisdiction provides estimates of the at-risk population(s), it should also include a description of the operational definition of the at-risk group and the methodology used to generate the estimates:

Wilmington uses the definition of at-risk homeless populations found at 24 CFR Part 91.5 and included below:

An individual or family who:

- i. Has an annual income below 30% of median family income for the area, as determined by HUD;
- ii. Does not have sufficient resources or support networks, *e.g.*, family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter; and
- iii. Meets one of the following conditions:

- a. Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
- b. Is living in the home of another because of economic hardship;
- c. Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;
- d. Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;
- e. Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;
- f. Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or
- g. Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the recipient's approved consolidated plan.

# Specify particular housing characteristics that have been linked with instability and an increased risk of homelessness

The most common characteristic mentioned by stakeholders is rising housing costs in terms of rent. This has made keeping their clients stably housed more difficult. As a result, less people can be provided with housing and waiting lists for their programs are growing. Additionally, with half of persons experiencing homelessness in Wilmington having at least one disability, getting supportive services and accommodations for physical disabilities is also a barrier to finding housing.

#### Discussion

# NA-15 Disproportionately Greater Need: Housing Problems – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

#### Introduction

HUD defines a disproportionately greater housing need when a racial or ethnic group experiences housing problems at a rate over 10 percentage points than that of the corresponding income level as a whole. The data table below summarizes the percentage of each racial/ethnic group experiencing housing problems by HUD Adjusted Median Family Income (HAMFI) levels. Where the HUD tables below report AMI, they refer to HAMFI. Housing problems include:

- Housing units lacking complete kitchen facilities and/or complete plumbing facilities
- Overcrowding (more than one person per room)
- Housing costs greater than 30% of income (i.e., cost burden)

In general, the percentage of households with a housing problem is highest for the lowest income brackets (0-50% AMI) and decreases as income increases. However, there are some groups disproportionately experiencing housing problems at more moderate income levels. According to the above definitions, the following groups are experiencing one or more housing problems at a disproportionate level at their income level:

- Hispanic households earning 0-30% AMI
- White households earning 50-80% AMI
- Asian households earning 50-80% AMI
- White households earning 80-100% AMI
- Asian households earning 80-100% AMI

# SUPPLEMENTAL TABLE: Summary of Disproportionate Housing Problems by Race/Ethnicity and Income, 2021

|                         | 0-30% AMI                           | 30-50% AMI | 50-80% AMI | 80-100% AMI |

## Discussion

# NA-20 Disproportionately Greater Need: Severe Housing Problems – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

#### Introduction

HUD defines a disproportionately greater housing need when a racial or ethnic group experiences housing problems at a rate over 10 percentage points than that of the corresponding income level as a whole. The data table below summarizes the percentage of each racial/ethnic group experiencing severe housing problems by HUD Adjusted Median Family Income (HAMFI) levels. Where the HUD tables below report AMI, they refer to HAMFI. Severe housing problems include:

- Lacks complete kitchen facilities
- Lacks complete plumbing facilities
- Is overcrowded with more than 1.5 person per room in the unit
- Experiences cost burden above 50%

Similar to housing problems, rates are highest for the lowest income brackets (0-50% AMI) and decreases as income increases. According to the above definitions, the following groups are experiencing one or more severe housing problems at a disproportionate level at their income level:

- Hispanic households earning 0-30% AMI
- Asian households earning 50-80% AMI

# SUPPLEMENTAL TABLE: Summary of Disproportionate Severe Housing Problems by Race/Ethnicity and Income, 2021

|                                | 0-30% AMI | 30-50% AMI                                 | 50-80% AMI | 80-100% AMI |  |  |

## Discussion

# NA-25 Disproportionately Greater Need: Housing Cost Burdens – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

#### Introduction:

HUD defines a disproportionately greater housing need when a racial or ethnic group experiences housing problems at a rate over 10 percentage points more than that of the corresponding income level as a whole. Cost burden is defined as paying more than 30% of income on housing expenses, and severely cost burdened is defined as paying greater than 50% of income on housing. The only disproportionate need is shown in Hispanic households experiencing severe cost burden.

# SUPPLEMENTAL TABLE: Disproportionate Housing Cost Burden by Race/Ethnicity and Income, 2021

|                         | Less than 30%<br>(No Cost Burden) | 30-50%       | More than 50%  | No/ negative income<br>(not computed) |

**Discussion:** 

# NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2)

# Are there any Income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole?

The impact of housing problems in Wilmington varies primarily by income level. However, the following income tiers experienced problems at a rate of at least ten percentage points higher than the City as a whole:

## **Housing Problems**

- Hispanic households earning 0-30% AMI
- White households earning 50-80% AMI
- Asian households earning 50-80% AMI
- White households earning 80-100% AMI
- Asian households earning 80-100% AMI

## **Severe Housing Problems**

- Hispanic households earning 0-30% AMI
- Asian households earning 50-80% AMI

#### Severe Cost Burden

Hispanic households

## If they have needs not identified above, what are those needs?

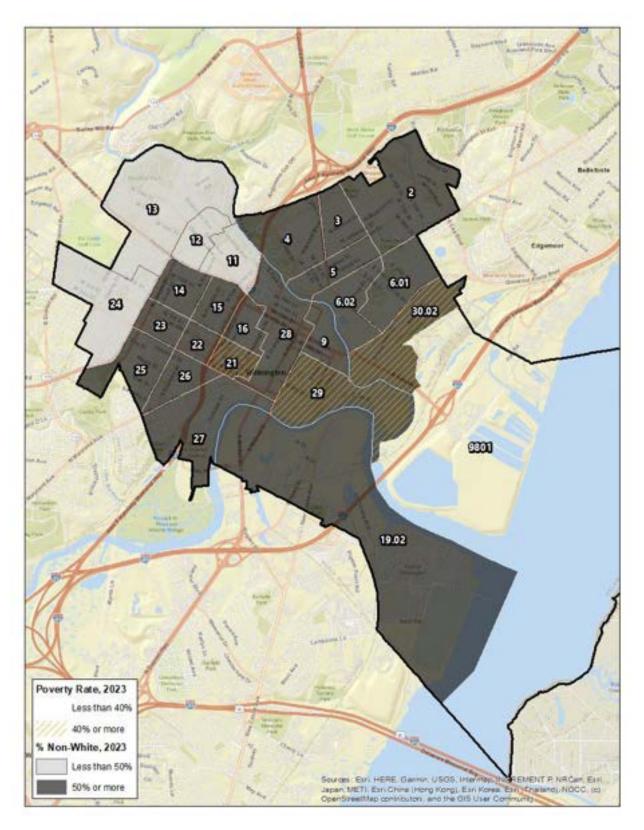

The needs among race/ethnicities are indicated above. Income categories have more general needs as described in NA-10 and the Housing Market Analysis. Stakeholders mentioned that additional challenges their clients are facing include limited English proficiency, criminal history for justice-involved individuals, and reasonable accommodation for persons with disabilities.

# Are any of those racial or ethnic groups located in specific areas or neighborhoods in your community?

HUD defines R/ECAPs as census tracts with a non-white population of at least 50% (and 20% outside of metropolitan/micropolitan areas) and a poverty rate that either exceeds 40% or is three times the average tract poverty rate for the metropolitan/micropolitan area, whichever is lower. By combining this data, it is possible to determine geographic patterns where there are concentrated areas of poverty among racial/ethnic minorities. Although ethnicity and race as defined by the US Census Bureau are not the same, the AI uses rates of both non-White and Hispanic/Latino populations to map a combined group of racial and ethnic concentrations, henceforth referred to collectively as "racially/ethnically concentrated areas of poverty" or R/ECAPs.

Under HUD's definition of racially/ethnically concentrated areas of poverty (R/ECAP), three census tracts in Wilmington meet this definition: 21, 29, 30.02. Census tract 21 is located near Wilmington's Hilltop

neighborhood and has a large Hispanic population. Census tracts 29 and 30.02 include the East Side and Riverside neighborhoods and have relatively large Black populations.

# **NA-35 Public Housing – 91.205(b)**

#### Introduction

The largest provider of affordable housing in the State of Delaware, WHA serves over 7,000 low to moderate-income residents across the City of Wilmington, manages 1,549 public, tax credit, and senior housing units, administers 3,249 Section 8 vouchers, and has a \$30 million annual budget. WHA also provides its residents with a wide array of programs and support services.

The need for affordable housing in Wilmington is made explicit through WHA's waiting list. WHA has over 9,500 low-income individuals and households on its public housing waiting list and more than 6,000 persons and households on its Section 8 HCV vouchers waiting list. Most families are expected to wait three or more years for assistance.

In addition to the generated tables below, the Wilmington Housing Authority (WHA) was directly consulted with to provide real time information and better understand the needs of their public housing residents and voucher holders. The average household residing in public housing under WHA typically consists of two people earning an annual household income of \$21,841 and stay in public housing for twelve years. Additionally, off WHA's 1,126 active public housing units, 489 residents are disabled (43.4%) and 352 are elderly or over the age of 62 years (31.3%).

Table 25 – Ethnicity of Public Housing Residents by Program Type

**Data Source:** PIC (PIH Information Center)

# Section 504 Needs Assessment: Describe the needs of public housing tenants and applicants on the waiting list for accessible units:

Section 504 of the Rehabilitation Act of 1973 and 24 CFR Part 8 requires that 5% of all public housing units be accessible to persons with mobility impairments. Another 2% of public housing units must be accessible to persons with sensory impairments. The Uniform Federal Accessibility Standards (UFAS) is the standard against which residential and non-residential spaces are judged to be accessible.

Currently, WHA has 50 partially accessible units. There are 335 disabled families on the waiting list. Accessibility needs are determined when families are interviewed, approximately 90 days before offer of a unit.

## Most immediate needs of residents of Public Housing and Housing Choice voucher holders

The greatest needs reported by public housing residents are increased security, such as posted guards at the sites 24/7, in the high-rise apartments and concerns about crime and safety from families living at family developments.

## How do these needs compare to the housing needs of the population at large

The needs of public housing residents and HCV holders are overall more dire than the population at large. Households residing in assisted housing typically are facing special circumstances, such as domestic violence, substance abuse, or mental and/or physical disabilities that require supportive services. Additionally, these residents have difficulties obtaining independent, permanent housing due to outstanding bills or credit history compounded by their special needs. Like the population at large, there is an overall shortage of housing that serves as a barrier for attaining housing.

#### Discussion

# NA-40 Homeless Needs Assessment – 91.205(c)

#### Introduction:

Wilmington is part of the statewide Continuum of Care. The Delaware CoC is a community-based collaborative that ensures a responsive, fair, and just approach to addressing homelessness, and strives to achieve housing for all. The Housing Alliance Delaware serves as the CoC Lead Agency and submits the collaborative application for homeless services programs on behalf of the state. Data is collected using the Homeless Management Information System, which is known as Community Management Information System (CMIS). The following charts have been completed using data from CMIS and the annual Point In Time (PIT) and Homeless Inventory Chart (HIC).

The following data was provided by Housing Alliance Delaware, the lead agency for the Delaware Continuum of Care and was only available at the State level. New Castle County accounted for 62% of people included in the 2024 PIT. The count estimated that 832 people in New Castle County experience homelessness on a given night. Of the homeless population, 17.5% were estimated to be unsheltered.

If data is not available for the categories "number of persons becoming and exiting homelessness each year," and "number of days that persons experience homelessness," describe these categories for each homeless population type (including chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth):

| Population   | Estimate the # of persons experiencing homelessness on a given night |             | Estimate the # experiencing homelessness each year | Estimate the #<br>becoming<br>homeless each<br>year | Estimate the # exiting homelessness each year | Estimate the # of days persons experience homelessness |
|--|--|-------------|--|---|---|--|
|  | Sheltered  | Unsheltered |  |   |   |  |
| Persons in Households<br>with Adult(s) and<br>Child(ren) | 383  |             | 792  |   |   |  |
| Persons in Households with Only Children                 | 1  |             | 17   |   |   |  |
| Persons in Households with Only Adults                   | 450  |             | 1,747  |   |   |  |
| Chronically Homeless<br>Individuals                      |  |             |  |   |   |  |
| Chronically Homeless Families                            |  |             |  |   |   |  |
| Veterans   |  |             |  |   |   |  |
| Unaccompanied Child                                      |  |             |  |   |   |  |
| Persons with HIV   |  |             |  |   |   |  |
| Severely Mentally III                                    |  |             |  |   |   |  |
| Chronic Substance Abuse                                  |  |             |  |   |   |  |
| Victims of Domestic<br>Violence                          | 85   |             |  |   |   |  |

## Nature and Extent of Homelessness: (Optional)

| Race: Black         | <b>Sheltered:</b> 543 (65.1%) | Unsheltered (optional) |
|---------------------|-------------------------------|------------------------|
| Ethnicity: Hispanic | Sheltered: 67 (8%)            | Unsheltered (optional) |

# Estimate the number and type of families in need of housing assistance for families with children and the families of veterans.

According to the 2024 PIT Count, there were 383 households with both an adult and at least one child, accounting for 45.9% of all households in the PIT. Children under 18 was also the largest age bracket when considering all individuals in the PIT, accounting for 30.5% of the count. Housing and shelters with the capacity to host families is a major need in Wilmington based on this information.

## Describe the Nature and Extent of Homelessness by Racial and Ethnic Group.

The Black population is disproportionately affected by homelessness, with 543 or 65.1% of individuals in the county's PIT being Black. With over half of Wilmington's population being Black compared to New Castle County's 21.5% Black population, it is likely these individuals are concentrated in Wilmington. The CMIS records for the three years between 2022-2024 follow this trend, as each year over 60% of those who accessed programs and services were Black/African American.

The Hispanic population is slightly underrepresented, with only 8% counted as homeless in the 2024 PIT but only 11.9% of Wilmington's population identifying as Hispanic.

#### Describe the Nature and Extent of Unsheltered and Sheltered Homelessness.

#### **Discussion:**

Service providers reported that homelessness is on the rise primarily due to the rise in housing costs. This is not only a challenge for the households at-risk of homelessness, but also for the service providers. Less people are assisted each year as the individuals being assisted are taking a larger portion of the limited funding pools as a result of rising costs for rental assistance, utilities, and deposits. Notable populations include persons living with HIV/AIDS, justice-involved individuals, and persons with disabilities needing supportive services or accommodations.

# NA-45 Non-Homeless Special Needs Assessment - 91.205 (b,d)

## Introduction:

Persons with special needs include the elderly and frail elderly, persons with severe mental illness, persons with developmental disabilities, persons with physical disabilities, persons with alcohol/other drug addictions. In addition, many persons with special needs also have very low incomes.

#### **HOPWA**

| Current HOPWA formula use:                       |       |
|--|-------|
| Cumulative cases of AIDS reported                | 0     |
| Area incidence of AIDS                           | 0     |
| Rate per population                              | 0     |
| Number of new cases prior year (3 years of data) | 344   |
| Rate per population (3 years of data)            | 0     |

Table 27 - HIV Housing Need

Data

HOPWA CAPER and HOPWA Beneficiary Verification Worksheet

Source:

## Describe the characteristics of special needs populations in your community:

## Elderly

Elderly persons are more likely to live on fixed, very low incomes or require special supportive service to complete their daily routines. This means elderly residents especially need affordable housing options and easy access to service providers.

According to ACS 2019-2013 estimates, 15.1% of households consist of at least one person aged 65 or over. In addition, ACS reported that 50.1% of persons 65 years and over had at least one disability in in 2023. The most common disabilities faced by the elderly are ambulatory difficulties (40.1%) and cognitive difficulties (20.3%).

## Persons with Disabilities

In 2023, 19.0% of the population was estimated to have at least one disability. Individuals with ambulatory disabilities generally require accessible housing units, and individuals with independent living disabilities may require assisted living facilities. Data from the 2023 ACS indicates that 10.9% had an ambulatory difficulty; 10.6% reported a cognitive difficulty.

In Wilmington, 18.9% of all adults aged 18-64 live below the poverty line. However, there are differences in the incidence of poverty by disability status. For those with a disability, 31.4% live below the poverty line as compared to 15.8% of those without a disability.

## **Substance Abuse and Addiction**

Individuals who have special needs are typically extremely low income and face tremendous challenges finding housing that they can afford. Individuals with special needs also require supportive services in addition to housing that they can afford. Public and private sources have limited funds available for these purposes, making it difficult for non-profit organizations to develop and operate housing and supportive service programs.

Service providers, such as HOPE Alliance, indicated that mental health struggles and substance abuse are major barriers to finding housing as it is difficult for their clients to maintain employment. As a result, their income is limited, and they cannot attain housing without a subsidy.

### Persons Experiencing Re-entry

Special needs service programs were indicated as priority needs for persons experiencing reentry, especially as it relates to educational/vocational services and mental health services. Reentry for single males coming out of prison and youth aging out of foster care is difficult in both obtaining and maintaining housing. There is very little assistance or awareness of available reentry services for individuals transitioning back into society. Additionally, landlords are very selective in terms of criminal history, source of income, and providing vital documents, such as birth certificates or Social Security number, that these individuals may have difficulty accessing.

Youth centers were considered the highest priority community facility in the stakeholder survey.

Additionally, the lack of literacy and soft skills are major barriers in terms to accessing human and social services for individuals re-entering society trying to find employment. Additional job training and literacy programs were mentioned by stakeholders as a way to achieve this. However, there was skepticism in terms of the inability to guarantee program participants a job. Additionally, households with children have difficulty accessing educational services due to the lack of affordable childcare.

# What are the housing and supportive service needs of these populations and how are these needs determined?

The most common need for all of the above special needs populations is the ability for them to maintain housing. Financial literacy and workforce development programs serve as the first step in obtaining employment. For justice-involved individuals, this includes creating an efficient network to allow them to efficiently re-enter the workforce. Additionally, literacy and soft skills are also major barriers in obtaining employment. Life skills training and financial literacy programs in tandem with workforce development efforts would also help improve life outcomes.

Supportive services were mentioned by stakeholders to not only be essential in obtaining housing and employment but also to maintain them. This covers a wide range of vulnerable populations, including persons with mental health or substance abuse issues requiring healthcare to single mothers needing childcare. However, limited funding serves as a major barrier as these funds must be distributed between housing and services and costs are rising.

# Discuss the size and characteristics of the population with HIV/AIDS and their families within the Eligible Metropolitan Statistical Area:

According to AIDS Delaware's most recent report on January 31, 2025, there are 1,369 persons living with HIV (at all stages) residing in the Wilmington Metro Area. This accounts for one-third of all persons living with HIV/AIDS in Delaware. Based on a 2023 HIV Surveillance Report published by the Delaware Department of Health and Social Services (DHSS), HIV was most prevalent among men (68.8%) and Black individuals (68%). Persons between the ages of 25 and 44 diagnosed with HIV make up 63% of those living with HIV in the Wilmington Metro Area.

The leading exposure risk categories are men having sex with men (MSM) contact (37%) and heterosexual contact (32%). Injecting drug uses (IDU) are the third highest risk category at 21%.

If the PJ will establish a preference for a HOME TBRA activity for persons with a specific category of disabilities (e.g., persons with HIV/AIDS or chronic mental illness), describe their

unmet need for housing and services needed to narrow the gap in benefits and services received by such persons. (See 24 CFR 92.209(c)(2) (ii))

**Discussion:** 

# NA-50 Non-Housing Community Development Needs – 91.215 (f)

## Describe the jurisdiction's need for Public Facilities:

Through CDBG funds, Wilmington can fund the construction, rehabilitation, or installation of public facilities. Eligible public facilities include neighborhood facilities (such as educational centers, parks, recreation centers, and libraries) and facilities for special needs populations (such as homeless shelters, elderly facilities, or centers for people with disabilities). Stakeholders mentioned a need for more common spaces for people to congregate to create a sense of community investment and engagement.

## How were these needs determined?

The needs were determined through public meetings and stakeholder sessions along with an online survey that was open to all city residents.

## Describe the jurisdiction's need for Public Improvements:

Through CDBG funds, Wilmington can also fund the construction, rehabilitation, or installation of public improvements. Public improvements include, but are not limited to, street and sidewalk improvements, water and sewer installation, and maintenance and ADA compliance construction and rehabilitation. Stakeholders mentioned a need to repair streets, especially in northeastern Wilmington.

## How were these needs determined?

The needs were determined through public meetings and stakeholder sessions along with an online survey that was open to all city residents.

## Describe the jurisdiction's need for Public Services:

Through CDBG funds, Wilmington can fund an array of public services. Eligible public services include, but are not limited to, homeless services, education and workforce development programs, homebuyer counseling, elderly care and programs, and childcare and health services for low- moderate-income households.

Stakeholders strongly emphasized the need to provide assistance for special needs populations that have challenges beyond financial instability. These populations include persons with HIV/AIDS, youths aging out of the foster care system, veterans, justice-involved individuals, and survivors of domestic violence. Services suggested include a workforce development program and training with willing employers to give these populations the opportunity to obtain employment, financial coaching, and wraparound supportive services related to health.

#### How were these needs determined?

The needs were determined through public meetings and stakeholder sessions along with an online survey that was open to all city residents.

# **Housing Market Analysis**

## MA-05 Overview

## **Housing Market Analysis Overview:**

This market analysis identifies the need to preserve existing affordable housing opportunities while advancing efforts to create an increased supply of additional affordable units. Ideally, Wilmington will have a mix of housing types to accommodate households of all types and income levels. The City of Wilmington's housing strategies will be especially guided by the increasing mismatch between incomes and housing costs and the specific accommodations necessary to ensure that special needs populations have adequate affordable housing options with appropriate supportive services where needed.

General conclusions about the market, as described in the following pages, include:

- The housing stock in Wilmington is principally single-family (63%) and renter-occupied (56.2%).
- Of the 14,737 owner-occupied units in Wilmington, 57.8% consist of three or more bedrooms.
   Among renter-occupied units, approximately one third units consist of one-bedroom units, followed by nearly a quarter each of 2-bedroom and 3-bedroom units.
- According to 2023 ACS, median contract rent in Wilmington was \$991. Adjusting for inflation, rent barely increased by 0.7% from 2019 to 2023.
- Over the same time, household incomes grew by 3% in Wilmington. While this may ease affordability issues, along with the increase in minimum wage to \$15 in January 2025, household income growth is not consistent between various groups.
  - Specifically, Hispanic households saw a decline in median household income, which may create further challenges for securing housing for this group.
- In Wilmington, 55.6% of the housing units were built prior to 1950. Another 27.4% of all units were built between 1950 and 1979. With most of the city's housing inventory being aged, maintenance and rehabilitation efforts are likely needed to keep them up to code.
- The 2-bedroom housing wage in the Philadelphia-Camden-Wilmington MSA is \$33.40. This means one would need to earn that much to afford a 2-bedroom home at FMR. The minimum wage in Delaware is \$15 per hour. To afford fair market rent for a 2-bedroom at minimum wage and not be cost burdened, one would need to work over 81 hours per week.

# MA-10 Number of Housing Units -91.210(a)&(b)(2)

#### Introduction

The housing stock in Wilmington is principally single-family (63%) and renter-occupied (56.2%). Data from the 2023 ACS indicates that 18.7 % of all adults aged 18-64 live below the poverty line. Among the entire population, 23.2% live below the poverty line. Among children under the age of 18 and seniors over the age of 65, approximately 40.8% and 17.5%, respectively, live below the poverty line. The high incidence of poverty among households with children and persons with disabilities points to the need for affordable housing, particularly within the renter-occupied market.

Of the 14,737 owner-occupied units in Wilmington, 57.8% consist of three or more bedrooms. Among renter-occupied units, approximately one third units consist of one-bedroom units, followed by nearly a quarter each of 2-bedroom and 3-bedroom units. The data is consistent with the city's housing inventory; single family units — which tend to be larger than multi-family units — comprise over 60% of the housing stock. There is a need for more multi-family housing units which tend to be more affordable, particularly for small families with children and single person households, demographic groups particularly prone to cost burden and severe cost burden.

The vacancy rate decreased from 16.5% in 2018 to 10.4% in 2023, according to ACS data.

## All residential properties by number of units

| Property Type                    | Number | %    |
|----------------------------------|--------|------|
| 1-unit detached structure        | 3,490  | 10%  |
| 1-unit, attached structure       | 17,840 | 53%  |
| 2-4 units                        | 3,930  | 12%  |
| 5-19 units                       | 2,410  | 7%   |

Table 29 – Unit Size by Tenure

Data Source: 2016-2020 ACS

# Describe the number and targeting (income level/type of family served) of units assisted with federal, state, and local programs.

According to Wilmington's 2023 Consolidated Annual Performance and Evaluation Report (CAPER), federal funds received since 2020 helped rehabilitate 25 rental units, construct 7 new rental units, repair 29 owner-occupied units, construct 2 new units of homeowner housing, and provide direct financial assistance to 20 income-eligible homebuyers

Of households with special needs, federal funds were used to assist 116 persons with HIV/AIDS through TBRA, 35 individuals at-risk of homelessness with TBRA, 782 persons with overnight shelter,

Provide an assessment of units expected to be lost from the affordable housing inventory for any reason, such as expiration of Section 8 contracts.

## Does the availability of housing units meet the needs of the population?

The currently supply of housing units does not meet the needs of the population, and there is significant need for affordable housing. Stakeholders mention there is a large amount of vacant housing inventory. However, substantial work is needed to bring many of the dilapidated, vacant housing to code compliance.

## Describe the need for specific types of housing:

Stakeholders mention a general lack of affordable housing options for low- and moderate-income households. This includes not only special needs populations at-risk of homelessness but also middle-income workers such as teachers, police cadets, daycare workers, etc. While rehabilitation can help provide additional housing along with increasing tax revenue, barriers include navigating the permitting process, rising material and construction costs, and limited funding to help subsidize affordable housing projects.

Based on WHA's waiting list and requests for housing, there is not enough housing for families. With their inventory primarily consisting of one-bedroom units, waits for 2-bedroom units are the longest and the number of 3- and 4-bedroom units are limited.

### Discussion

## MA-15 Housing Market Analysis: Cost of Housing - 91.210(a)

#### Introduction

The HUD-provided table below indicates the number of affordable units available to households with various income levels. The 2,755 rental units identified as affordable to households below 30% of the HUD-adjusted Median Family Income (HAMFI) represent only 11.6% of the rental housing inventory in Wilmington. Given that CHAS data indicates there are 8,320 households with incomes below 30% of HAMFI, there are approximately three households that need affordable housing at this income level for each affordable unit available, representing a clear and demanding need for additional affordable housing units.

The Fair Market Rent (FMR) for a two-bedroom unit in Wilmington is \$1,218 per month. To avoid being cost burdened, a household needs to earn \$4,060 per month, or roughly \$23.42 per hour. A minimum wage worker in Wilmington earning \$15 per hour needs to work more than 68 hours per week to afford a two-bedroom unit. The monthly Supplemental Security Income (SSI) payment is \$967 for an eligible individual or \$1,450 for an eligible couple. Individuals for which this is the sole source of income can only spend \$290 monthly on housing to not be cost burdened, which is slightly more than a quarter of the cost of renting an efficiency. For couples on SSI, they can only spend \$435 monthly on housing to not be cost burdened, which is more than one-third of the monthly cost of a market-rate one-bedroom apartment in Wilmington.

## **Cost of Housing**

|                      | Base Year: 2009 | Most Recent Year: 2020 | % Change |
|----------------------|-----------------|------------------------|----------|
| Median Home Value    | 167,500         | 173,500                | 4%       |
| Median Contract Rent | 739             | 854                    | 16%      |

Table 33 - Monthly Rent

Data Source: HUD FMR and HOME Rents

## Is there sufficient housing for households at all income levels?

No, there is not sufficient housing available at all income levels. Based on the data provided by Table 2 and Table 35, there are not enough housing units affordable to households earning less 50% HAMFI. There are a total of 9,770 units affordable to households earning 50% HAMFI, but 12,820 households earning 50% HAMFI or less.

Additionally, based on the Housing Needs Inventory and Gap Analysis Table from Wilmington's HOME-ARP Allocation Plan, there are 5,575 households in need of housing, specifically focusing on 0-50% AMI renter households. This gap takes into account higher income households renting or buying housing down-market, occupying housing that would be affordable to lower income households.

# How is affordability of housing likely to change considering changes to home values and/or rents?

As depicted in Table 33, the cost of rent has increased 16% from 2009 to 2020. According to 2023 ACS, median contract rent in Wilmington was \$991. Adjusting for inflation, rent barely increased by 0.7% from 2019 to 2023. Over the same time period, household incomes grew by 3% in Wilmington. While this may ease affordability issues, along with the increase in minimum wage to \$15 in January 2025,

household income growth is not consistent between various groups. Specifically, Hispanic households saw a decline in median household income, which may create further challenges for securing housing for this group.

|                    | 2019,<br>adj. to 2023 dollars | 2023      | % Change, 2019-2023 |
|--------------------|-------------------------------|-----------|---------------------|
| City of Wilmington | \$53,662                      | \$55,269  | 3.0%                |
| White              | \$77,560                      | \$80,158  | 3.4%                |
| Black              | \$37,690                      | \$41,059  | 8.9%                |
| Asian              | \$91,315                      | \$102,308 | 12.0%               |
| Hispanic           | \$39,675                      | \$39,511  | -0.4%               |

SUPPLEMENTAL TABLE: Change in Income, 2019-2023

Additionally, mortgage rates have been increasing steadily since the COVID-19 pandemic. With fewer homeowners selling and more renters remaining renters, demand will continue to outpace the supply meaning that housing affordability in Wilmington will remain a challenge and likely worsen.

# How do HOME rents / Fair Market Rent compare to Area Median Rent? How might this impact your strategy to produce or preserve affordable housing?

The Fair Market Rent (FMR) for a two-bedroom unit in Wilmington is \$1,470 per month. To avoid being cost burdened, a household needs to earn \$4,900 per month. In 2024, the National Low-Income Housing Coalition's *Out of Reach* report states the 2-bedroom housing wage in the Philadelphia-Camden-Wilmington MSA is \$33.40. This means one would need to earn that much to afford a 2-bedroom home at FMR. The minimum wage in Delaware is \$15 per hour. In order to afford FMR for a 2-bedroom at minimum wage and not be cost burdened, one would need to work over 81 hours per week.

As of January 2023, the monthly Supplemental Security Income (SSI) payment is \$914. Households for which this is the sole source of income can spend \$274 monthly on housing, which is 54% of the cost of renting the cheapest one-bedroom unit at FMR putting that individual in the severely cost burdened range.

The monthly Supplemental Security Income (SSI) payment is \$967 for an eligible individual or \$1,450 for an eligible couple as of 2025. If used solely for housing, these payments would almost be entirely consumed by rent. Individuals for which this is the sole source of income can only spend \$290 monthly on housing to not be cost burdened, which is slightly more than a quarter of the cost of renting an efficiency. For couples on SSI, they can only spend \$435 monthly on housing to not be cost burdened, which is more than one-third of the monthly cost of a market-rate one-bedroom apartment in Wilmington.

Wilmington will continue to prioritize allocation of resources to rehabilitating existing rental units and developing new rental units.

### Discussion

# MA-20 Housing Market Analysis: Condition of Housing – 91.210(a) Introduction

The following data provides an overview on the condition of housing in Wilmington, DE. The following housing problems are included in the data that follow: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) overcrowding (more than one person per room), and 4) cost burden (more than 30% of household income spend on housing).

# Describe the jurisdiction's definition of "standard condition" and "substandard condition but suitable for rehabilitation":

Standard Condition: No major structural defects; adequate plumbing and kitchen facilities; appearance which does not create a blighting influence; and the house meets additional, more stringent, local standards and building codes, including lead-based paint clearance.

Substandard Condition but Suitable for Rehabilitation: The nature of the substandard condition makes rehabilitation both financially and structurally feasible.

Housing Conditions: Condition of units is assessed using the same criteria as in the Needs Assessment. This includes: 1) lacks complete plumbing facilities, 2) lacks complete kitchen facilities, 3) more than one person per room, 4) cost burden (amount of income allocated to housing) is greater than 30%, and 5) complies with applicable building code standards.

### **Condition of Units**

| Condition of Units             | Owner- | Occupied | Renter-Occupied |      |  |
|--------------------------------|--------|----------|-----------------|------|--|
|                                | Number | %        | Number          | %    |  |
| With one selected Condition    | 3,490  | 27%      | 7,535           | 45%  |  |
| With two selected Conditions   | 60     | 0%       | 375             | 2%   |  |

| Abandoned REO Properties |                                |                                    |       |

Table 37 - Vacant Units

### **Need for Owner and Rental Rehabilitation**

Older housing typically requires more continual maintenance. In the absence of routine maintenance, older housing can quickly become substandard. The common age threshold used to signal a potential deficiency is approximately 50 years or more. In Wilmington, 55.6% of the housing units were built prior to 1950. Another 27.4% of all units were built between 1950 and 1979.

Owner- and renter-occupied housing units have different percentages of units built in the four time periods presented in the table above. Although both owner and rental units likely require rehabilitation from normal wear and tear, the need is slightly greater for owner-occupied units – 63% were built prior to 1950, compared to 50% for renter-occupied units.

Renter-occupied units have a much higher prevalence (45%) of having at least one selected condition than owner-occupied units (27%). This may indicate that more renter-occupied units than owner-occupied units require rehabilitation, although "selected condition" includes cost burden and overcrowding, which are not reflections of the physical state of the unit. It is

uncommon for both owner- and renter-occupied units to have more than one selected condition

According to stakeholders, housing rehabilitation is a major need in Wilmington. There are many vacant, substandard properties that can be rehabilitated. However, challenges to getting these rehabilitation projects off the ground include navigating bureaucratic processes, rising land and material costs, and limited funding.

# Estimated Number of Housing Units Occupied by Low or Moderate Income Families with LBP Hazards

Lead-based paint was banned from residential uses in 1978. All houses constructed before 1978 are therefore considered at risk for containing lead-based paint. HUD has made the elimination of housing units containing lead-based paint a priority. The poisoning of children from contact with lead-based paint has been recognized as a major public health problem by the Center for Disease Control (CDC). According to the CDC, lead is the number one environmental health hazard to American children. It is estimated that 10%-15% of all preschoolers in the United States are affected. Lead poisoning causes IQ reductions, reading and learning disabilities, decreased attention span, hyperactivity, and aggressive behavior.

Lead-based paint hazards pose the greatest risk for children, especially those under seven years of age. Table 39 above provides data on owner-occupied and renter- occupied units built before 1980 with children present. As the table indicates, Wilmington households with children are more likely to be impacted by lead-based paint hazards owner-occupied units than in renter-occupied units.

#### Discussion

## MA-25 Public and Assisted Housing – 91.210(b)

#### Introduction

The Wilmington Housing Authority (WHA) is the largest provider of affordable housing in the State of Delaware. WHA serves over 7,000 low to moderate-income residents across the City of Wilmington, manages 1,549 public, tax credit, and senior housing units, administers 3,249 Section 8 vouchers, and has a \$30 million annual budget. WHA is committed to increasing the affordable housing stock in the City of Wilmington, building and nurturing relationships with public and private partners to support new housing developments along with exploring innovating financing options in a landscape of limited resources.

#### Describe the supply of public housing developments:

The Wilmington Housing Authority (WHA) manages and maintains 1,126 public housing units. Most of these units are one-bedroom units (400) followed by three-bedroom units (234). While most of these properties are in areas of concentrated poverty and/or minorities, most of Wilmington also falls within these categories. Demand for public housing far outweighs supply of housing; the waiting list currently has 3,583 households. WHA is looking at other financing sources and housing opportunities to fulfill the demand for affordable housing.

Describe the number and physical condition of public housing units in the jurisdiction, including those that are participating in an approved Public Housing Agency Plan:

HUD's Real Estate Assessment Center conducts physical property inspections of properties that are owned, insured or subsidized by HUD, including public housing. Inspections are conducted to ensure that assisted families have housing that is decent, safe, sanitary and in good repair. The scores on the next page for WHA public housing properties are up-to-date as of June 30, 2023. A passing score for a REAC Physical Inspection is 60 or above. All sites received a passing score except for Scattered Sites South. However, more recent HUD inspections (NSPIRE) have scored high at the public housing sites. Regular maintenance and repairs are a priority at WHA.

#### **Public Housing Condition**

| Public Housing Development | Average Inspection Score |
|----------------------------|--------------------------|
| SOUTHBRIDGE                | 64                       |
| Northeast                  | 90                       |
| CRESTVIEW APTS             | 61                       |
| BAYNARD APTS               | 85                       |
| Scattered Sites North      | 63                       |
| Mid City                   | 66                       |
| Scattered Sites South      | 45                       |
| NEW VILLAGE OF EASTLAKE    | 61                       |
| 22nd and Heald Street      | 72                       |

**Table 39 - Public Housing Condition** 

#### Describe the restoration and revitalization needs of public housing units in the jurisdiction:

WHA plans to undertake a number of projects to improve the availability of housing in the City of Wilmington for low-income households.

WHA was awarded a \$50 million CNI Grant in July 2023. This grant will create approximately 553 mixed-income rental units, including 273 public replacement units, 97 additional affordable units (LIHTC-only), and 183 unrestricted market-rate units. The new master plan for the target housing site also incorporates homeownership units not funded with CNI funds. WHA will continue to work with Pennrose Development Corp., the City of Wilmington, REACH Riverside, Kingswood Community Center, and the Eastlake Charter School for the redevelopment of the Northeast/Riverside Family Development. This project is expected to take 5 to 10 years to complete.

Additionally, WHA and its non-profit entity DAHG have started conducting thorough inspections of each vacant unit to assess its condition and identify necessary repairs. The next step is prioritizing the units for rehabilitation based on factors like condition, location, and potential for occupancy. Demolition and disposition of units that are beyond repair or economically infeasible to rehabilitate is also being considered.

WHA is also looking to expand the availability of affordable housing units within higher-income neighborhoods. Social research underscores the beneficial impact of residing in resource-rich areas, especially for young children, where access to quality schools and libraries fosters educational attainment and cultivates safe, violence-free, and healthy environments. However, acquiring housing in such areas is often prohibitively expensive. WHA intends to leverage tools such as tax credits, landlord recruitment initiatives, and other strategies to facilitate low-income families' access to these communities.

Finally, WHA plans to apply for a second CNI Grant to develop other areas in Wilmington. The grant program, administered by HUD, aims to transform distressed neighborhoods by revitalizing housing, improving educational opportunities, and promoting economic development. Like WHA's current CNI grant, this new grant will provide funding and technical assistance to support the implementation of revitalization plans over several years. The overarching objective remains the creation of healthier, more sustainable, and inclusive communities.

# Describe the public housing agency's strategy for improving the living environment of lowand moderate-income families residing in public housing:

WHA will continue to provide resident support services to households residing in public housing or are HCV holders. Programs include a homeownership program, employment and training program, family self sufficiency program (FSS), housing placement, Resident Opportunity and Self Sufficiency Program (ROSS), resident council leadership and capacity training, senior support services, volunteer opportunities, wellness check-ins, and youth job training.

As part of their strategic plan, WHA seeks to lengthen the duration of resident support services, so participants not only just obtain housing or jobs but also maintain them. Additionally, WHA is looking at other opportunities to improve economic mobility of residents, such as on-site job training, financial literacy workshops, educational support, transportation assistance, and childcare. Finally, neighborhood and community improvements will focus on community engagement, infrastructure improvements, and safety and security.

#### **Discussion:**

# MA-30 Homeless Facilities and Services – 91.210(c)

#### Introduction

The City of Wilmington is part of the statewide Continuum of Care, with Housing Alliance Delaware serving as the lead agency. Data for this section was provided by the CoC using their local Homeless Management Information System, Community Management Information System (CMIS). CMIS is used by more than 70 homeless services projects in Delaware. Other data sources used to complete this information are the Point in Time Count (PIT) and Housing Inventory Count (HIC).

Table 40 - Facilities and Housing Targeted to Homeless Households

Describe mainstream services, such as health, mental health, and employment services to the extent those services are use to complement services targeted to homeless persons

The Ministry of Caring is a "community-based nonprofit organization that provides a network of social, health and support services for those living in poverty, including the homeless and working poor, in the greater Wilmington, Delaware area." In addition to emergency shelter for men and women with/without children, the Ministry operates three child care centers with hours meeting the needs of working parents, a Job Placement Center to develop employment skills and obtain work, and basic dental and medical services both in their own facility and in a custom medical care van that travels throughout the City. More specialized services provided by the Ministry of Caring are addressed in MA-35.

Connections Community Support Programs (CSP) provides "a comprehensive array of health care, housing, and employment opportunities that help individuals and families to achieve their goals and enhance [their] communities." Connections' main services are focused on the treatment of mental health and substance abuse issues. Medical care, lab services, and therapy are provided. Additionally, Connections also provides employment services for clients and supportive services for families of veterans and families affected by substance use disorders.

List and describe services and facilities that meet the needs of homeless persons, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. If the services and facilities are listed on screen SP-40 Institutional Delivery Structure or screen MA-35 Special Needs Facilities and Services, describe how these facilities and services specifically address the needs of these populations.

#### **Families**

Family Promise of Northern New Castle County (FPNNCC) is a nonprofit with a mission of preventing and ending homelessness for families. Their primary goals to transition the families using their services to permanent housing in less than sixty days. Their Hospitality Center provides temporary shelter for up to six families (or 20 individuals). FPNNCC's other facility, the Day Center, can also house six families. Strongly volunteer-driven, services include mentorship, case management, financial literacy courses, job assistance, housing assistance, and advocacy.

Supportive Transitional & Emergency Housing Ministry (STEHM) provides long-term transitional housing for women and women with children to foster the goal of independent living. Supportive services include counseling and life skills training. Individualized case management helps residents prepare a realistic budget and establish a target completion date to live independently. Short-term emergency housing is also available through STEHM's Motel Ministry for up to one week. In 2023, this program served 187 men, women, and children for a total of 1267 people stay nights of emergency shelter.

**Veterans** 

The Delaware Center for Homeless Veterans (DCHV) provides safe and affordable permanent housing for veterans. DCHV also provides supportive services to reintegrate and educate homeless veterans and their families to obtain recovery, self-sufficiency, independence, and community integration. Additionally, outreach for recruiting more landlords willing to accept HCVs is conducted to expand housing options for veterans.

#### **Unaccompanied Youth**

CHILD, Inc is a nonprofit serving dependent, neglected, and abused children and their parents since 1963. The mission of their Governor Terry Children's Center is to "reduce the possibility, incidence, or reoccurrence of child abuse or neglect by providing an emergency home, food, clothing and age-appropriate counseling to children, ages six through seventeen years." The Center offers 10-beds for a maximum 30-day stay. Supportive services include psychosocial assessment, individual counselling, advocacy, referrals, collateral involvement, and therapeutic family interactions. Transportation to and from school, group activities, evening study time, and recreational activities are offered to help provide a home-like environment. CHILD, Inc also operates an anger management program for youth, a specialized foster care program, 24-hour runaway and homeless youth hotline, and counseling and mediation services for families dealing with divorce, separation, custody, or visitation issues.

## MA-35 Special Needs Facilities and Services – 91.210(d)

#### Introduction

Various supportive housing needs of the non-homeless have been identified by service providers who were interviewed during the Consolidated Plan process. Stakeholders identified needs include home repair, weatherization and maintenance for the elderly and frail, accessibility improvements to enable people with disabilities to remain in their homes, housing for the mentally disabled and affordable housing for all sub-populations. Additionally, with New Castle County housing nearing two-third of the population with HIV/AIDS in Delaware, concentrated in Wilmington, housing and supportive service needs for these populations were identified as major need in the city.

#### **HOPWA Assistance Baseline Table**

| Type of HOWA Assistance | Number of Units Designated or Available for People with HIV/AIDS and their families |
|-------------------------|---|
| TBRA                    | 62  |
| PH in facilities        | 0   |
| STRMU                   | 5   |
| ST or TH facilities     | 0   |
| PH placement            | 0   |

Table 41 – HOPWA Assistance Baseline

Data Source: HOPWA CAPER and HOPWA Beneficiary Verification Worksheet

Including the elderly, frail elderly, persons with disabilities (mental, physical, developmental), persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, public housing residents and any other categories the jurisdiction may specify, and describe their supportive housing needs

The Delaware HIV Consortium operates a statewide rental voucher program providing rental assistance for low-income persons living with HIV/AIDS and their families. This program is primarily funded by HOPWA and the Ryan White CARE Act. The Consortium estimates that approximately 150 households receive rental assistance annually. Supportive services include HIV medications and treatment, case management, transportation, food programs, and wellness counseling. In 2023, 58 households were provided tenant-based rental assistance (TBRA) through HOPWA funds.

Ministry of Caring operates two supportive housing facilities for adults living with HIV/AIDS. Their House of Joseph II facility has offered supportive housing for sixteen men and women living with HIV and AIDS in a communal setting since 1997. Round-the-clock care is provided by certified nursing assistants supervised by a registered nurse and a physician from St. Francis Hospital serves as medical director in coordinating admissions. Meals, snacks, housekeeping services, and personal care are also provided for residents. Ministry of Caring also sponsors Mother Theresa House, offering independent housing for six low-income adults living with

HIV/AIDS, sharing the same supportive services as House of Joseph II. HOPWA funds historically have been used for health and medical services.

# Describe programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing

Connections CSP operates the state's Projects for Assistance in Transition from Homelessness Program. The program focuses on "primary outreach services to homeless persons with serious mental illness or co-occurring disorders with the aim of engaging them and linking them with the mainstream treatment and support services." Key components include:

- Walk-in clinics providing physical and behavioral health assessments, initial treatment, and case-managed referrals to follow-up services.
- Coordinated services with Community Mental Health Centers (CMHC) and Community Continuum of Care Programs (CCCP).
- Six transitional housing to provide safe and supportive living arrangements for homeless persons with severe mental health conditions and are not affiliated with a community provider of long-term services such as a group home or CCCPs.

Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. 91.315(e)

The following activities have been selected to address housing and supportive services needs during FY 2025:

- HeArt Under the Hoodie, a youth violence prevention program that aims to guide development of emotional and social competencies in adolescents through the use of the Urban Improv and PowerSource Taking Charge of Your Life Curricula, IAM 40 Developmental Assets Assessment Tool, and supplemental materials. The program will receive \$15,000 in FY 2025 CDBG funds and expects to assist 115 youths.
- Interfaith Community Housing of Delaware's Homeownership Center, which helps low income families and persons with limited English proficiency become self-sufficient homeowners. The program will receive \$10,000 in FY 2025 CDBG funds and expects to assist 750 income-eligible homebuyers, many of which are expected to be first-time homeowners.
- The Challenge Program provides education and job training for high-risk youth ages 17-24 years from low-income communities. The program will receive \$25,000 in FY 2025 CDBG funds and expects to assist 15 youths from low-income communities.

- The Latin American Community Center will provide tuition assistance for its broad spectrum of services for youth and their families, including early development care, before and after school programs, summer camps, and more. The program will receive \$15,000 in FY 2025 CDBG funds and expects to assist 20 youths from low-income households.
- Westend Neighborhood House's Above Xpectations (AX) track team provides young people from disadvantaged circumstances the opportunity to compete in world class track and field competitions and, more importantly, to prepare them for post-secondary education. This program will receive \$10,000 in FY2025 CDBG funds and expects to assist 280 youths from low-income communities.
- The Cecil County Housing Assistance Program, which will assist HIV positive or People With AIDS (PWAs) maintain stable housing through supportive services. The program will receive \$43,611 in FY 2025 HOPWA funds and expects to assist 6 households.
- The Delaware Housing Assistance Program provides tenant-based rental assistance for low-income households with at least one person with HIV/AIDS. The program will receive \$7240,225 in FY 2025 HOPWA funds and expects to assist 60 households.
- Ministry of Caring's House of Joseph II provides permanent housing and essential supportive services for homeless men and women living with HIV/AIDS who are in need of ongoing nursing care to live as fully and independently as possible. Services include case management services, food service, and comprehensive medical care. The program will receive \$132,359 in FY 2025 HOPWA funds and expects to assist 16 households.

For entitlement/consortia grantees: Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. (91.220(2))

## MA-40 Barriers to Affordable Housing – 91.210(e)

### Negative Effects of Public Policies on Affordable Housing and Residential Investment

Most of Wilmington is zoned for denser housing development, particularly row houses. By promoting denser housing development, affordable housing becomes a possibility in the City. This is supported by the lower cost of housing in the City (\$224,500 median home value; \$1,187 median gross rent in 2023) compared to New Castle County (\$329,800 median home value; \$1,379 median gross rent). However, this does not provide information on the quality of housing available. Stakeholders frequently mentioned that many homes on northeastern side of the City are in dire need of home repairs.

According to the 2023-2030 Delaware Housing Needs Assessment, community and local opposition to new housing has been one of the greater barriers to expanding affordable housing across the state. This is primarily related to zoning changes and the public processes. as both attract significant opposition. Examples heard by stakeholders include strain on infrastructure such as water and sewer systems, increased traffic, and increased costs associated with school children. Community opposition was most prominent in Wilmington and New Castle County. Stakeholders mentioned a need to expand public education on affordable and workforce housing to combat this issue.

# MA-45 Non-Housing Community Development Assets – 91.215 (f)

#### Introduction

While the City of Wilmington will not be funding economic development activities through its HUD entitlement funds, support for local businesses and workforce development programs are key parts of encouraging upward economic mobility for Wilmington residents. Additionally, newly elected Mayor John Carney is emphasizing economic growth as a key focus for his administration, with plans to improve coordination and collaboration and the development of a new Comprehensive Economic Development Strategy (CEDS).

### Educational Attainment – Median Earnings in the Past 12 Months

| Educational Attainment                      | Median Earnings in the Past 12 Months |
|---|---------------------------------------|
| Less than high school graduate              | 21,578                                |
| High school graduate (includes equivalency) | 30,825                                |
| Some college or Associate's degree          | 31,113                                |
| Bachelor's degree                           | 57,873                                |
| Graduate or professional degree             | 70,713                                |

Table 48 - Median Earnings in the Past 12 Months

Data Source: 2016-2020 ACS

# Based on the Business Activity table above, what are the major employment sectors within your jurisdiction?

The three largest employment sectors in Wilmington in terms of jobs are Finance, Insurance, and Real Estate; Professional, Scientific, Management Services; and Education and Health Care

Services. These sectors make up over 75% of all jobs in Wilmington, with some of the largest employers in the City being Christiana Care Health Services, DuPont, and Bank of America. While these sectors generally have higher wages, only 52.0% of Wilmington residents work in these sectors.

Almost one-quarter of Wilmington residents work in Retail Trade and Arts, Entertainment, Accommodations sectors combined. These sectors have some of the lowest median earnings in the City according to 2019-2023 ACS data: \$27,317 for Retail Trade and \$17,434 for Arts, Entertainment, Accommodations. Additionally, these sectors only make up 12.0% of the job share in the City, implying they are likely working outside of Wilmington.

#### Describe the workforce and infrastructure needs of the business community:

Transportation and job training were cited as the biggest workforce need by stakeholders. Public transportation is not readily accessible everywhere in the city. Additionally, there are safety concerns regarding the location of some transit stops and overall poor public infrastructure in some parts of the city, such as in northeastern Wilmington.

Stakeholders emphasized that youths and justice-involved individuals especially need assistance in gaining employment. While there are a few vocation training programs for both populations available in Wilmington, these groups face other challenges in gaining employment. Much of the youth population relies on public transit since many or not licensed. Additionally, life skills training is also necessary, as they have not acclimated to a routine work schedule and have not yet maintained their own housing independently. For persons experiencing re-entry, finding employers that are open to hiring them is the biggest challenge for this group.

Affordable housing options for not only low-income households but also necessary middle-income earners such as teachers, police cadets, and daycare workers, were cited by stakeholders as a need in the community to allow them to affordably live in the communities they serve.

Describe any major changes that may have an economic impact, such as planned local or regional public or private sector investments or initiatives that have affected or may affect job and business growth opportunities during the planning period. Describe any needs for workforce development, business support or infrastructure these changes may create.

Recently elected Mayor John Carney identified economic growth as a key focus area for his administration to provide economic prosperity and equitable outcomes for Wilmington residents and businesses.

Under this administration, the City plans to create and implement a Comprehensive Economic Development Strategy (CEDS) for the city, emphasizing neighborhood investment, improved access to training and jobs with livable wages, and supporting small businesses.

Additionally, the mayor plans to establish an Economic Development Roundtable. This initiative will foster collaboration among government agencies, businesses, and nonprofits, with the goal of driving sustainable and equitable growth across Wilmington.

Finally, the city plans to make the permitting processing more transparent and streamlined to make doing business in the city more accessible and increasing support for local businesses.

# How do the skills and education of the current workforce correspond to employment opportunities in the jurisdiction?

The workforce of Wilmington mostly has only a high school education (34.9%) or a bachelor's degree or higher (34.2%). However, as previously mentioned, the share of jobs in Wilmington is geared toward potential employees with higher levels of education, with over half of all jobs in the City falling in Finance, Insurance; Professional, Scientific, Management Services; or Education and Health Care Services. Job opportunities for residents with a high school diploma or less may need to look outside of the City for employment.

Describe any current workforce training initiatives, including those supported by Workforce Investment Boards, community colleges and other organizations. Describe how these efforts will support the jurisdiction's Consolidated Plan.

The Delaware Workforce Development Board (DWDB) "ensures the citizens of Delaware are provided with occupational training and employment service opportunities to help them achieve employment sustaining them and their families." DWDB provides a One Stop Partner Resources sheet by county to provide jobseekers with a consolidated list of resources to find employment, financial assistance, job training, certification, and education.

In 2022, American Rescue Plan Act (ARPA) funds were used to fund a job training program through New Castle County Vocational Technical School District (VOTECH). The program helps provide wages to students as well as provide student resources and training needed. The budget also is expected to pay for uniforms, tools, boots, transportation costs to and from a project site, and other necessities. The program is expected to continue for several years and is available to Wilmington residents.

Does your jurisdiction participate in a Comprehensive Economic Development Strategy (CEDS)?

Wilmington participates in the Delaware Comprehensive Economic Development Strategy, which was last updated April 20, 2020. Additionally, Wilmington plans on creating its own CEDS in the near future.

If so, what economic development initiatives are you undertaking that may be coordinated with the Consolidated Plan? If not, describe other local/regional plans or initiatives that impact economic growth.

Because the CEDS encompasses the State of Delaware, not all goals and objectives are applicable at the municipal level. As part of the Delaware CEDS, the following goals and projects are currently in progress in the City of Wilmington:

- Increase economic development collaboration among public and private partners
- Upgrade the workforce of Delaware through enhanced education and training driven by and focused on the needs of Delaware's core business sectors.
- Accelerate the growth of manufacturing through an accelerated career path to ensure high school graduates are ready to start a career on day one.
- Provide assistance to entrepreneurs and small businesses to grow their business

Retraining efforts as it relates to the CEDS started with ZipCode Wilmington, a nonprofit coding bootcamp established in 2015 providing students twelve weeks of intensive training with Java and JavaScript coding. The curriculum serves to address increasing demand for software developers along with providing individuals the opportunity to gain real-life experience and develop a professional portfolio. Job placement assistance is also provided.

As Wilmington formulates its own CEDS, goals and initiatives may change as it shifts focus more locally. Local efforts to upgrade the workforce through additional training and education were emphasized by many stakeholders as well.

#### Discussion

### MA-50 Needs and Market Analysis Discussion

Are there areas where households with multiple housing problems are concentrated? (include a definition of "concentration")

As mentioned in NA-20, there are very few households in Wilmington with multiple housing problems. Cost-burden is the single, most-common housing problem throughout the City.

# Are there any areas in the jurisdiction where racial or ethnic minorities or low-income families are concentrated? (include a definition of "concentration")

The City of Wilmington has three census tracts of racially and ethnically concentrated areas of poverty (R/ECAP): census tracts 21, 29, and 30.02. Using HUD's definition, an R/ECAP is a census tract with greater than 50% non-White population and greater than 40% poverty rate. The R/ECAPs are located in the Hilltop (tract 21), East Side (tract 29), and Riverside (tract 30.02). The Hilltop neighborhood has a large Hispanic population while the East Side and Riverside have relatively large Black populations.

### What are the characteristics of the market in these areas/neighborhoods?

The R/ECAPs primarily consist of dense residential housing, mostly single-family row houses. According to the 2019-2013 ACS, the median home value in these areas ranged between \$95,600 to \$170,700. Median gross rent ranged between \$442 and \$732. These values are all below that of the City's median home value (\$224,500) and gross rent (\$1,187). Non-residential areas comprise of most of the land in the western-most areas of the R/ECAPs near Brandywine Creek. These areas are zoned for general industry and waterfront commercial and manufacturing.

#### Are there any community assets in these areas/neighborhoods?

There are a number of organizations providing community services, amenities, and opportunities in these areas, with some targeting special needs populations:

- Latin American Community Center in the Hilltop neighborhood (Census Tract 22)
  provides family support services, short- and long-term case management, substance
  abuse prevention, advocacy for victims of crime, adult education including financial
  empowerment and ESL classes, and youth education programs for children of all ages.
- REACH Riverside is a community development organization serving the Riverside neighborhood. Their efforts are focused on redevelopment, education, and community health.

#### Are there other strategic opportunities in any of these areas?

REACH Riverside provides a number of opportunities, resources, and connections for transforming the Riverside community. In partnership with Pennrose and the Wilmington Housing Authority, REACH Riverside is developing 700 units of mixed-income rental homes. They also intend to build or convert 130 homes for affordable homeownership opportunities.

In terms of education, REACH Riverside partners with a number of organizations such as Kingswood Early Learning Academy, The Warehouse, and EastSide Charter School to provide educational opportunities and growth for youths of all ages. This includes a kindergarten-readiness program and the RISE program to provide teens career experience and soft skill training.

Finally, health and wellness programs are provided virtually and on-site at the Kingswood Community Center and The Warehouse. Services and programs include new sidewalks and playgrounds for mental health support; financial literacy; youth engagement; and access to primary healthcare. This includes a partnership with Christiana Care to provide virtual appointments and in-person appointments at Kingswood Community Center.

# MA-60 Broadband Needs of Housing occupied by Low- and Moderate-Income Households - 91.210(a)(4), 91.310(a)(2)

Describe the need for broadband wiring and connections for households, including low- and moderate-income households and neighborhoods.

Broadband is a necessity to access and maintain employment opportunities, education, and healthcare. Individuals without fast Internet access may lack digital literacy and habits prevalent today, creating a digital divide between those who have Internet and those who do not. This divide can be created as a result of income, educational attainment, and/or race. According to 2023 ACS data, 9.73% of households in Wilmington do not have access to the internet at home. Areas with a large concentration of households without internet access include Census Tract 29, which was previously identified as a R/ECAP and includes the East Side Neighborhood.

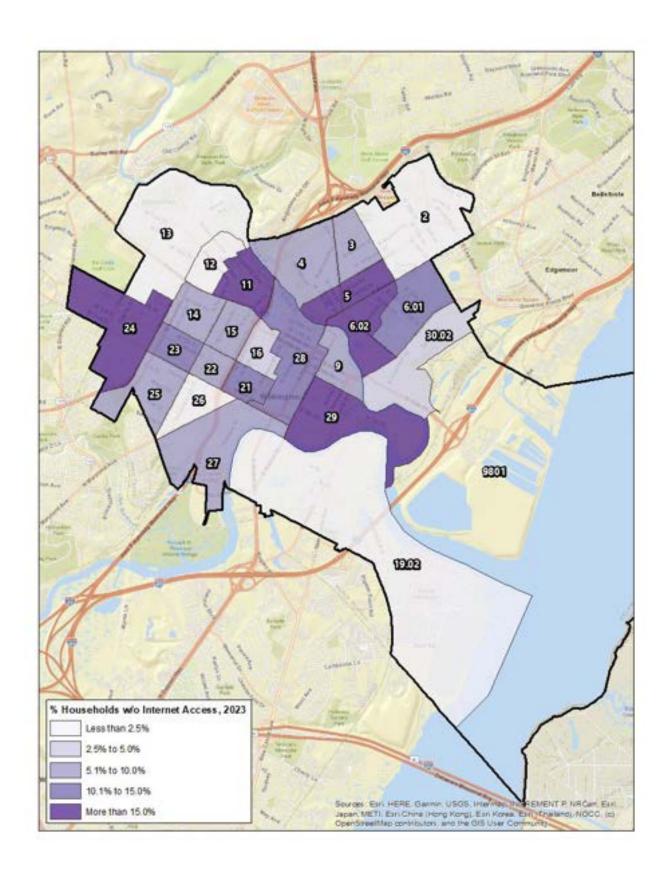

Delaware is one of the first states in the country to reach final approval if their "Internet for All" proposal under the federal Broadband Equity, Access, and Deployment (BEAD) Program as of January 2025. In 2023, Delaware was awarded a total of \$107 million from BEAD to build internet infrastructure and close the digital divide The new %17.4 million grant serves to extend broadband service to more than 5,700 unserved and underserved homes and businesses throughout Delaware, with the ultimate goal being to fully connect the state to high-speed internet.

WHA also recognizes the lack of broadband access in low-income public housing and acted to address this issue. WHA engaged with major internet providers to assess availability and then established a partnership with Comcast to ensure fiber internet was installed at management offices and high-rise locations. The introduction of fiber broadband improves both employee operations and resident access to internet services, vital for education, employment, and connectivity. WHA is keeping an eye on the Delaware BEAD plan for potential offers that could further assist low-income residents through programs that provide internet at reduced costs. As of February 2025, fiber internet has been successfully established at all low-income public housing sites, marking a significant achievement in improving digital access.

Describe the need for increased competition by having more than one broadband Internet service provider serve the jurisdiction.

For many places, the availability of Internet is not the issue for the digital divide; the lack of affordability serves as a major factor. Having access to more than one broadband Internet

service provider not only creates more affordable, competitive pricing but also can improve the speed and quality of Internet available and accessible to residents.

## MA-65 Hazard Mitigation - 91.210(a)(5), 91.310(a)(3)

#### Describe the jurisdiction's increased natural hazard risks associated with climate change.

The City of Wilmington utilizes the 2020 All-Hazards Mitigation Plan for New Castle County, which was adopted November 2020. Hazards were prioritized based on the probability of occurrence and the potential impact of the occurrence. The highest risk hazards in Wilmington are floods, hazardous materials, and coastal winds. From 1993 through 2019, New Castle County experienced 238 flood events. Due to the city's coastal location, severe wind events from hurricanes, tropical storms, and nor'easters can cause widespread damage in the city. Finally, Wilmington with its large industrial corridor poses high risk for hazardous material incident, reporting 152 incidents from 2011 to 2019.

As outlined in 2015 version of the plan, the City of Wilmington completed most of their local mitigation actions, which includes review and amendment of local policies, developing plans in case of emergency, and implementing infrastructure to mitigate flood damage. Most, if not all, of these mitigation actions are carried over into the updated 2020 plan as ongoing efforts to be maintained by the city.

# Describe the vulnerability to these risks of housing occupied by low- and moderate-income households based on an analysis of data, findings, and methods.

Based on the R/ECAPs defined in NA-30, low- and moderate-income households are at high risk of flooding due to their location at the confluence of the Christina River and Brandywine Creek. Additionally, these areas are also close to industrial zones, placing LMI households at risk of exposure to hazardous materials and poor environmental quality.

# **Strategic Plan**

#### SP-05 Overview

### **Strategic Plan Overview**

The City of Wilmington is allocated \$ 2,261,378 in CDBG, \$ 477,885.02 in HOME, \$ 197,824 in ESG, and \$ 944,530 in HOPWA funding in FY 2025. The purpose of the Strategic Plan is to guide the use of these funds over the next five years. The plan is guided by three overarching goals that are applied according to the [jurisdiction]'s needs. The goals are:

- To provide decent housing by preserving the affordable housing stock in both the rental and homeowner markets, increasing the availability of affordable housing by reducing barriers, and increasing the number of accessible units.
- To improve the quality of life and living conditions for low- and moderateincome persons through improvements in public facilities and infrastructure and the removal of slum/blighting influences.
- To expand economic opportunities through more jobs paying self-sufficient
  wages, homeownership opportunities, development activities that promote
  long-term community viability, and the empowerment of low- and moderateincome persons to achieve self-sufficiency.

The City of Wilmington developed this plan using citizen participation and stakeholder input generated by several stakeholder consultations and public meetings.

Based on these items the City of Wilmington established the following list of priorities:

- Access to Affordable Housing
- Improve Public Facilities
- Improve, Maintain and Expand Public Infrastructure
- Provide Public Services

# SP-10 Geographic Priorities – 91.215 (a)(1)

## **Geographic Area**

Assistance is not directed to any specific geographic area in the City of Wilmington. All funding will benefit LMI clientele and areas throughout the municipality.

| Are | Are | Other Tar  | HUD A  | % of | Revi | Other R  | Iden | Incl  | How   | Id  | Wh    | Are  |

**Table 49 - Geographic Priority Areas** 

#### **General Allocation Priorities**

Describe the basis for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA)

Not all the housing and community development needs identified in this plan can be addressed over the next five years due primarily to the limited resources available. The selection of non-housing community development priorities within income-eligible areas reflects the City's desire to create appreciable and lasting living environment improvements. Housing priorities reflect the need to broaden the supply of affordable housing in high opportunity areas.

The system for establishing the priority for the selection of these projects is predicated upon the following criteria:

- Meeting the statutory requirements of the CDBG Programs;
- Meeting the needs of low- and moderate-income residents;
- Focusing on low- and moderate-income areas or neighborhoods;
- Coordination and leveraging of resources;
- Response to expressed needs;
- Sustainability and/or long-term impact; and
- The ability to demonstrate measurable progress and success.

|                                | Victims of Domestic Violence  |  |  |  |  |
| Geographic                     | City-wide City-wide   |  |  |  |  |
| Areas Affected                 | CDBG-eligible areas   |  |  |  |  |
| Associated Goals               | Provide Public Services   |  |  |  |  |
| Description                    | Provide support for facilities and services individuals with special needs. This includes homeless persons, near-homeless persons, elderly, youth transitioning out of foster care, victims of domestic violence, justice-involved individuals facing reentry, and individuals with HIV/AIDS. Services encompass childcare services, health and mental health services, broadband access, transportation, non-homeless special needs and employment training. |  |  |  |  |
| Basis for Relative<br>Priority | Housing services for homeless persons, elderly, and youth transitioning discussed as a priority by stakeholders. These individuals have difficulties getting into stable housing or are most susceptible to facing homelessness. Domestic violence, youth foster care transition, and justice-involved individuals facing re-entry are also major priorities within this category.  |  |  |  |  |

| Priority Need<br>Name          | Improve Public Facilities and Infrastructure  |  |  |  |  |  |  |
|--------------------------------|---|--|--|--|--|--|--|
| Priority Level                 | Medium  |  |  |  |  |  |  |
|                                | Extremely Low Income  |  |  |  |  |  |  |
| Population                     | Low Income  |  |  |  |  |  |  |
| Fopulation                     | Moderate Income   |  |  |  |  |  |  |
|                                | Non-housing Community Development   |  |  |  |  |  |  |
| Geographic<br>Areas Affected   | City-wide   |  |  |  |  |  |  |
| Associated Goals               | Improve Public Facilities and Infrastructure  |  |  |  |  |  |  |
| Description                    | Improvements to public facilities and infrastructure and facilities that deliver public services. Infrastructure improvements include solid waste disposal, flood drains, water/sewer, streets, sidewalks, streetscapes, neighborhood facilities, and parks and recreational facilities. Public facilities include those that serve youth/children, abused and neglected children, seniors, persons with disabilities and other vulnerable populations. |  |  |  |  |  |  |
| Basis for Relative<br>Priority | There is a need to make improvements, particularly in low- and moderate-income areas and for elderly residents, in which the local jurisdictions are less able to leverage resources or attract investments that are necessary to improve the quality of life. Sidewalk improvements were also a top priority for public infrastructure initiatives along with neighborhood and commercial district improvements.                                       |  |  |  |  |  |  |
| Priority Need<br>Name          | Increase Access, Supply & Quality of Housing  |  |  |  |  |  |  |

|                                | Increase Access, Supply & Quality of Housing  |
|--------------------------------|---|
| Description                    | Provide assistance to homeowners and renters to increase housing supply and housing affordability programs, reduce the impact of neglected and vacant properties, and improve housing conditions for LMI residents. Increase access to housing through homebuyer assistance programs.   |
| Basis for Relative<br>Priority | High housing costs reduce economic opportunities and access to prosperity as prices in the sales and rental markets are outpacing wage growth.  |
| Priority Need<br>Name          | Provide Housing/Services to Homeless & At-Risk  |
| Priority Level                 | High  |
|                                | Families with Children  |
|                                | Elderly Families  |
|                                | Elderly   |
|                                | Frail Elderly   |

|                                | Persons with Developmental Disabilities   |
|                                | Persons with Alcohol or Other Addictions  |
|                                | Victims of Domestic Violence  |
| Geographic                     | City-wide   |
| Areas Affected                 | CDBG-eligible areas   |
| Associated Goals               | Provide Housing/Services to Homeless & At-Risk  |
| Description                    | Provide support for shelter and housing operations; acquisition, construction, or rehabilitation of temporary shelters and transitional housing for the homeless, including victims of domestic violence, veterans, disaster victims, families with children, unaccompanied youth, drug offenders, and formerly incarcerated persons. Additionally, funding may also be used to increase permanent supportive housing opportunities and work to create a stronger network of providers of supportive and mainstream services to homeless clients. |
|                                |   |
| Basis for Relative<br>Priority | Housing services for homeless persons, the elderly, and transitioning youth were discussed as a priority by stakeholders for populations at risk of homelessness. These individuals have difficulties getting into stable housing or are most susceptible to facing homelessness. Domestic violence, youth foster care transition, and justice-involved individuals facing re-entry are also major priorities within this category that may face difficulties finding and maintaining housing.  |
|                                | discussed as a priority by stakeholders for populations at risk of homelessness.  These individuals have difficulties getting into stable housing or are most susceptible to facing homelessness. Domestic violence, youth foster care transition, and justice-involved individuals facing re-entry are also major priorities   |
| Priority Need                  | discussed as a priority by stakeholders for populations at risk of homelessness. Domestic violence, youth foster care transition, and justice-involved individuals facing re-entry are also major priorities within this category that may face difficulties finding and maintaining housing.  Provide Housing/Services to HIV/AIDS Population   |

| Geographic<br>Areas Affected   | CDBG-eligible areas   |
|--------------------------------|---|
| Associated Goals               | Provide Housing/Services to HIV/AIDS Population   |
| Description                    | Provide support to address the housing needs of people living with HIV/AIDS. This includes, but not limited to, the acquisition, rehabilitation, or new construction of housing units; costs for facility operations; rental assistance; short-term payments to prevent homelessness; assessment and case management; substance abuse treatment, mental health treatment, nutritional services, job training and placement assistance, and assistance with daily living.                                      |
| Basis for Relative<br>Priority | With about two-thirds of persons living with HIV in Delaware residing in New Castle County and Wilmington containing a disproportionate amount of Delaware residents living HIV, addressing this population's housing and healthcare needs is major priority for the City of Wilmington. Affordable housing has been the largest challenge that persons with HIV face in the City of Wilmington, citing increased housing costs and limited financial resources as major barriers to addressing these issues. |

Table 50 – Priority Needs Summary

# **Narrative (Optional)**

# SP-30 Influence of Market Conditions – 91.215 (b)

# **Influence of Market Conditions**

| Affordable                                 | Market Characteristics that will influence  |
|--|---|
| Housing Type                               | the use of funds available for housing type   |
| Tenant Based Rental Assistance (TBRA)      | High market-rate rents relative to average wages in Wilmington may limit the ability of Housing Choice Voucher holders and holders of other forms of TBRA to successfully obtain rental housing. It is also very difficult for voucher holders to find a landlord who will accept their voucher. Wilmington administers the Section 8 program for tenant assistance in the City of Wilmington.  |
| TBRA for Non-<br>Homeless Special<br>Needs | See above.  |
| New Unit<br>Production                     | The current housing market in Wilmington makes housing rehabilitation a much more impactful option than new unit production. Additionally, the cost of new construction is relatively much higher compared to rehabilitation.  Therefore, focus will be put on rehabilitation in order to increase the supply of affordable housing. However, the City may engage in new construction if given the opportunity.   |
| Rehabilitation                             | The data from the Needs Assessment and Market Analysis reveals the increasing gap in housing affordability. Rehabilitation of existing units has been one tool the City will continue to use over the next five years. Keeping housing affordable by providing owner-occupied rehabilitation services is an effective way to maintain decent and affordable housing in the community. The housing rehabilitation program will continue to be a focus for Wilmington. The program aims to eliminate substandard living conditions and prolong the useful life of the housing stock occupied by low- and moderate-income households. However, the increasing costs of rehabilitation may result in a reduction in the annual number of homeowner repairs completed despite high levels of need in the City's LMI areas. |
| Acquisition, including preservation        | While median sales prices have largely recovered to their pre-crash levels, the The volume of sales is still lagging despite historically low interest rates. Tighter lending restrictions combined with uncertainty in the job market are contributing to the slow recovery of homebuyer acquisition activity. Acquisition is a low priority due to the larger need for the rehabilitation of affordable housing. However, the City may engage in acquisition over the next five years if it is preferable for providing extensive rehabilitation or reconstruction.   |

**Table 51 - Influence of Market Conditions** 

# SP-35 Anticipated Resources - 91.215(a)(4), 91.220(c)(1,2)

#### Introduction

Funding for FY 2025 will be expended as indicating in the following table of anticipated resources.

In the event that Wilmington would need to administer program funds on behalf of another municipality, the allocation will depend on what that municipality is awarded by HUD.

## **Anticipated Resources**

| Program | Source Program of Uses of Funds Funds |   | Expected Amount Available Year 1 |            |                          |             | Expected Amount Available Remainder of ConPlan | Narrative Description   |

**Table 52 - Anticipated Resources** 

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Additional resources will be leveraged from the Delaware State Housing Authority and local and regional foundations.

# If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City of Wilmington works closely with the Wilmington Neighborhood Conservancy Land Bank to reclaim vacant, blighted, and abandoned properties in the City. Land acquired by the land bank is donated to the City when deemed appropriate to further this mission.

# SP-40 Institutional Delivery Structure – 91.215(k)

Explain the institutional structure through which the jurisdiction will carry out its consolidated plan including private industry, non-profit organizations, and public institutions.

**Table 54 - Homeless Prevention Services Summary** 

Describe how the service delivery system including, but not limited to, the services listed above meet the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth)

The Delaware HIV Consortium operates a statewide rental voucher program providing rental assistance for low-income persons living with HIV/AIDS and their families. This program primarily funded by HOPWA and the Ryan White CARE Act. The Consortium estimates that approximately 150 households receive rental assistance annually. Supportive services include HIV medications and treatment, case management, transportation, food programs, and wellness counseling.

Ministry of Caring operates two supportive housing facilities for adults living with HIV/AIDS. Their House of Joseph II facility has offered supportive housing for sixteen men and women living with HIV and AIDS in a communal setting since 1997. Round-the-clock care is provided by certified nursing assistants supervised by a registered nurse and a physician from St. Francis Hospital serves as medical director in coordinating admissions. Meals, snacks, housekeeping services, and personal care are also provided for residents. The Ministry of Caring also sponsors Mother Theresa House, offering independent housing for six low-income adults living with HIV/AIDS, sharing the same supportive services as House of Joseph II.

Connections CSP operates the state's Projects for Assistance in Transition from Homelessness Program. The program focuses on "primary outreach services to homeless persons with serious mental illness or co-occurring disorders with the aim of engaging them and linking them with the mainstream treatment and support services." Key components include:

- Walk-in clinics provide physical and behavioral health assessments, initial treatment, and casemanaged referrals to follow-up services.
- Coordinated services with Community Mental Health Centers (CMHC) and Community Continuum of Care Programs (CCCP).

Six transitional housing to provide safe and supportive living arrangements for homeless persons
with severe mental health conditions and are not affiliated with a community provider of longterm services such as a group home or CCCPs.

# Describe the strengths and gaps of the service delivery system for special needs population and persons experiencing homelessness, including, but not limited to, the services listed above

The City will continue to cooperate with various non-profit agencies and developers to implement its Five-Year Strategy and to address the specific needs of special needs populations identified in the plan. One of the strengths of the delivery system is the existing collaborative network of service providers and housing providers. This includes the CoC, nonprofit and private developers, and other government agencies. In addition, the Department of Real Estate and Housing provides an experienced staff and well-organized program for initiating public programs that can be affirmatively marketed to special needs populations and persons experiencing homelessness.

## Provide a summary of the strategy for overcoming gaps in the institutional structure and service delivery system for carrying out a strategy to address priority needs

To address the shortage of affordable housing options, both the City and WHA are pursuing options to increase supply. The City is continuing rehabilitation and home repair efforts along with partnerships with local developers to efficiently make use of federal and non-federal dollars. WHA is will continue to apply for additional Section 8 units should they become available, pursue other housing resources besides public housing or Section 8 tenant-based vouchers, replace lost public housing units using the Section 32 Homeownership Program and mixed finance development, and use Replacement Housing Factor funds for acquisition and new construction.

Table 55 – Goals Summary

#### **Goal Descriptions**

|   | Goal Name           | Planning/Administration  |
|---|---------------------|--|
| 1 | Goal<br>Description | Support administration and delivery of CDBG, HOME, ESG, and HOPWA activities.  |
|   | <b>Goal Name</b>    | Provide Public Services  |
| 2 | Goal<br>Description | The City will provide support for services serving non-homeless youths, families, elderly and other special needs groups in need of assistance to improve their quality of life. Activities include vocational services, life skills training, education assistance programs, and financial literacy programs for both adults and youth.   |
|   | <b>Goal Name</b>    | Improve Public Facilities and Infrastructure   |
| 3 | Goal<br>Description | Improvements to public facilities and infrastructure and facilities that deliver public services. Infrastructure improvements include solid waste disposal, flood drains, water/sewer, streets, sidewalks, streetscapes, neighborhood facilities, and parks and recreational facilities. Public facilities include those that serve youth/children, abused and neglected children, seniors, persons with disabilities and other vulnerable populations.  |
|   | <b>Goal Name</b>    | Increase Access, Supply & Quality of Housing   |
| 4 | Goal<br>Description | Extend the useful life of existing affordable housing through weatherization, repair, and rehabilitation programs and expand the supply and improve the condition of housing affordable to lower income households, including new construction and leveraging other public and private resources such as Low Income Housing Tax Credits to make housing more available to low- and moderate-income households.   |
|   | <b>Goal Name</b>    | Provide Housing/Services to Homeless & At-Risk   |
| 5 | Goal<br>Description | The City will use CDBG and ESG funds to support shelter and housing operations. Acquisition, construction, or rehabilitation of temporary shelters and transitional housing for the homeless, including victims of domestic violence, veterans, disaster victims, families with children, unaccompanied youth, drug offenders, and formerly incarcerated persons. Provide funding to increase permanent supportive housing opportunities and work to create a stronger network of providers of supportive and mainstream services to homeless clients. |
|   | <b>Goal Name</b>    | Provide Housing/Services to HIV/AIDS Population  |
| 6 | Goal<br>Description | The City will use HOWPA funds to address the housing needs of people living with HIV/AIDS. Activities include TBRA, STRMU, permanent housing, supportive services, case management, and medical services.  |

## Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.315(b)(2)

Through rehabilitation, new construction, homebuyer assistance, tenant based rental assistance, and rapid rehousing, the City of Wilmington estimates to provide affordable housing to 425 extremely low-income, 625 low-income, and 425 moderate-income families during PYs 2025-2029.

#### SP-50 Public Housing Accessibility and Involvement – 91.215(c)

## Need to Increase the Number of Accessible Units (if Required by a Section 504 Voluntary Compliance Agreement)

WHA currently has 50 partially accessible units that are in accordance with the Uniform Federal Accessibility Standards (UFAS). This meets Section 504 requirements.

#### **Activities to Increase Resident Involvements**

Each public housing property has an elected Resident Council to discuss and make recommendations on PHA plans. In addition to input, Resident Councils also collaborate and coordinate with WHA's Resident Services Department for capacity building, self-sufficiency, and program planning for residents.

As part of WHA's FY 2025-2029 Five-Year Plan, the housing authority is looking to broaden outreach for existing programs, such as their One Stope Shope EnVision Center, self-sufficiency programs and case management housing programs. Additionally, continued partnership with agencies that helped provide services such as workforce development programs, financial management/credit services, and outside of referrals will be maintained.

#### Is the public housing agency designated as troubled under 24 CFR part 902?

Wilmington Housing Authority is not designated as troubled.

#### Plan to remove the 'troubled' designation

Wilmington Housing Authority is not designated as troubled.

#### SP-55 Barriers to affordable housing – 91.215(h)

#### **Barriers to Affordable Housing**

According to stakeholders, the general lack of housing supply and mismatch of available jobs compared to the existing workforce's level of education and training make finding affordable housing difficult for residents. Other issues such as mental health, physical disabilities, lack of certifications and licenses, and childcare create additional challenges for finding appropriate, affordable housing.

Developers cite high costs for new construction as their biggest barrier to developing affordable housing. Wilmington is almost entirely developed, making new construction costly. There is a need for sufficient secondary subsidies if the City wants to pursue new construction. As a result, rehabilitation will be the primary focus for generating new affordable housing options, especially due to the age of housing in the City.

#### Strategy to Remove or Ameliorate the Barriers to Affordable Housing

Wilmington's 2028 Comprehensive Plan remains the most up-to-date document describing the city's policies and action as it relates to land use, neighborhoods, transportation, infrastructure, the economy, the environment, and quality of life. The document was last updated in 2020. The plan sets forth a goal to "ensure all residents have access to quality housing that is affordable and offers choice." The goal identifies a need to both retain and attract residents, with lower income residents facing difficulties in securing and maintaining housing. To strengthen their communities, Wilmington looks to not only promote pathways to maintain and improve homeownership but also provide a broader range of housing choices through new affordable housing development, new housing products, and promoting incentives and programs for the purchase and rehabilitation of existing housing stock.

The City's Department of Real Estate and Housing (RE&H) also offers a First Start Homebuyer Program for income-eligible households. Each applicant will be eligible for assistance totaling the lesser of \$15,000 or 6% of a property purchase price. A minimal contribution of \$1,000 is required from the buyer. The funds may be used for down payments or closing costs. The program is funded through a mix of CDBG funds for low- to moderate-income households and general funds for households earning 100% AMI. RE&H also connects homeowners with other service providers with programs that will improve housing affordability such as home repair programs and weatherization assistance. These programs cover a wide range of needs including safety modifications, furnace repair and replacement, and roof replacements.

#### SP-60 Homelessness Strategy – 91.215(d)

## Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

During the next five years, the City's federal funds will continue to support programs to provide decent and safe living environments for homeless and those at risk of becoming homeless, through funding such activities as emergency shelter operations, housing rehabilitation, and other critical expenses, and rapid rehousing.

The City maintains support for the YMCA, YWCA, Catholic Charities, Ministry of Caring, Homeless Planning Council, Family Promise, Connection CSP and Salvation Army, which work together to provide outreach to the homeless population, including unsheltered persons. Several of the nonprofit social and human service agencies that provide services to the homeless and those at risk of becoming homeless leverage additional private funds used to operate emergency shelters, transitional housing facilities, and supportive housing facilities within Wilmington. These funds are also used to provide supportive services such as case management, counseling, job training, and life skills classes.

#### Addressing the emergency and transitional housing needs of homeless persons

Wilmington is a member of the Delaware Continuum of Care (CoC), the primary program in the State addressing homelessness led by Housing Alliance Delaware. In their 2024 System Performance Measures, Housing Alliance Delaware identified that 83.4% of persons entering the system had no prior experience of homelessness, up from 68% in 2018.

Housing Alliance Delaware administers Centralized Intake services to coordinate access to emergency shelter, rapid re-housing, and permanent supportive housing. The CoC practices a Housing First model, providing shelter for individuals regardless of personal hardships or circumstances. Homeless services can be accessed through the Delaware 211 hotline, State Service Centers, or local homeless service providers such as a shelter or day center.

According to Delaware 211, requests for housing and shelter were the most common need reported by callers, accounting for 11,520 out of 27,614, or 41.7%, of calls made between May 2024 and May 2025. Over 40% of the requests were made for rental assistance, followed by the need for shelter at 13.6% of all housing-related requests. According to the stakeholder survey, transitional and permanent housing for individuals experiencing homelessness was the second highest priority housing activity. Nearly one-third of these requests were not able to be fulfilled, indicating a great need in the community. Additionally, 4,596 utility-related requests were made through 211, nearly all of which were for payment assistance. Similar to the housing requests, 37% of utility-related requests could not be assisted.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

Housing Alliance Delaware identified that 38.92% of homeless households in the State exited permanently to housing between October 2023 and September 2024. As mentioned in MA-30 supportive services including health, mental health, and employment services are provided for a wide range of special needs through various homeless service providers in Wilmington. These programs serve to not only provide immediate shelter but also help homeless individuals obtain future permanent housing by providing job and life skills training, case management services, educational opportunities, and other supportive services that allow them to pursue these opportunities. For more detailed information on supportive service provision for homeless persons with special needs, please refer to MA-30.

Help low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families who are likely to become homeless after being discharged from a publicly funded institution or system of care, or who are receiving assistance from public and private agencies that address housing, health, social services, employment, education or youth needs

Based on FY2024 System Performance Measures, the highest risk of returning to homelessness after moving into housing occurs in the second year after obtaining permanent housing, with 5.94% of exiting households returning to homelessness after 13 to 24 months compared to 2.04% after 6 to 12 months. As a result, the availability of services is most critical in the first two years after obtaining permanent housing. The services mentioned previously also serve to help formerly individuals from becoming homeless again and maintain permanent housing. Additionally, stakeholders frequently mentioned the need for wraparound services to prevent homeless individuals from re-entering the system.

#### SP-65 Lead based paint Hazards – 91.215(i)

#### Actions to address LBP hazards and increase access to housing without LBP hazards

In 2022, New Castle County received \$3.3 million for the No Lead Program, \$2 million for the Healthy Homes Production Grant Program, and \$8.7 million grant through the Lead Hazard Reduction Grant Program. The No Lead Program was established in 2019. While it was initially limited to five ZIP codes in the county, the additional funding will expand the program to all ZIP codes in the county, with an expected 330 housing units to receive assistance. Households with children under the age of 6, with pregnant women, or those residing in homes built before 1978 are eligible for the program.

The Healthy Homes Program is a county-wide program designed to identify hazards such as radon, carbon monoxide, lead hazard, damp & mold, leaking roofs, excess heat and/or cold, falls in bathroom, electrical hazards, structural collapse, lighting issues, pests & food safety, or unsafe windows and doors through a Healthy Homes Assessment. Eligible households include those with seniors over the age of 62 years, persons with disabilities, or children under the age of 18 years.

Additionally, WHA received \$5 million through HUD's Capital Fund Lead-Based Paint Program in September 2023 to reduce residential hazards in public housing. The program will attempt to remediate any lead contaminants from all WHA housing inventory over the five-year grant period.

#### How are the actions listed above related to the extent of lead poisoning and hazards?

According to 2017-2021 CHAS data, the City of Wilmington has 2,905, or 87.7% of families with children under the age of six years at risk of lead-based paint exposure, living in homes built before 1979. Exposure to lead-based paint hazards is more prevalent for extremely low-income renters (0-30% AMI) and owner-occupied households earning more than 100% AMI.

#### How are the actions listed above integrated into housing policies and procedures?

The No Lead Program and Healthy Homes Program is conducted through New Castle County's Community Development and Housing Division and will complement other local programs such as the Home Repair Loan Program and the Wilmington Housing Partnership.

#### SP-70 Anti-Poverty Strategy – 91.215(j)

#### Jurisdiction Goals, Programs and Policies for reducing the number of Poverty-Level Families

Poverty can compound other neighborhood indicators such as vacancy, cost-burden, and crime. The City of Wilmington and local service providers have developed goals, programs, and policies to reduce poverty and improve access to affordable housing. In Wilmington's 2028 Comprehensive Plan, which was updated in July 2019, the City set forth a goal area for the creation of "Strong and Safe Neighborhoods." Goals under this umbrella addressing poverty and its effects include promoting walkable neighborhoods to improve access to jobs, services, and amenities; increasing access to quality housing that is affordable and offers choice; reducing neighborhood blight and crime; ensuring neighborhoods have access to high quality, welcoming public spaces and recreation; and supporting neighborhood character cohesion and pride. Established programs that will be continued or created to address this goal include the Neighborhood Stabilization Program, the Wilmington Community Advisory Committee, and partnerships between local businesses, institutions, and organizations.

## How are the Jurisdiction poverty reducing goals, programs, and policies coordinated with this affordable housing plan

These poverty reducing measures serve to improve access to affordable housing choice by preventing and mitigating the effects of poverty. Stakeholders mention high eviction rates and an inability to obtain quality employment and wages as major barriers to obtaining affordable housing. Programs providing case management and workforce training, along with homeless prevention services that include these aspects are prioritized for public service funds. The City is continuing to develop new measures and strategies to create more resilient communities, as outlined in their comprehensive plan.

#### *SP-80 Monitoring – 91.230*

Describe the standards and procedures that the jurisdiction will use to monitor activities carried out in furtherance of the plan and will use to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The City of Wilmington has instituted monitoring systems that ensure the City complies with regulatory requirements associated with Federal funding sources, including the Community Development Block Grant (CDBG) program, the Home Investment Partnerships (HOME) program, the Emergency Shelter Grants (ESG) program, and the Housing Opportunities for People with AIDS (HOPWA) program. Specifically, the City has a detailed process of contracting that includes setting priorities and benchmarks. These priorities and benchmarks drive the monitoring process and set the standard for goals and outcomes to be achieved.

Through the Department of Real Estate and Housing, the City of Wilmington reviews anticipated and planned projects and activities to make determinations on fundability and eligibility. A team of experts in compliance, rehabilitation, and finance from the Department is assigned to the program and coordinates payments. Furthermore, the Department of Real Estate and Housing does not act independently. Any new development requires both an environmental review and a historic preservation review and must comply with the Department of Planning's defined standards.

The City is held accountable for achieving its projected goals. As such, all activities administered by City departments as well as projects contracted to subrecipients are reviewed annually to ensure that review procedures and compliance standards are being met. City-administered housing activities that are funded through Federal, state, local, and private resources are tracked internally. The City's monitoring system is comprehensive and consists of a written monitoring handbook, file checklists, and monitoring checklists for each type of project administered by the City. Subrecipients are required to submit monthly and annual reports summarizing program performance and financial activity. City staff is responsible for on-site monitoring of all Federal programs for compliance. In addition, City staff is responsible for the review of every payment request for adequate supporting documents, including eligible expenditures under the contract. The City Auditor reviews audits of all subrecipients required to have an audit on an annual basis.

In the City of Wilmington, the use of HOME funds is monitored individually. A HOME Monitoring Log is used to establish frequency of on-site Wilmington City Housing Code inspections of HOME rental units and annual tenant income certification reviews. All completed projects require annual tenant income certification, review of HOME rents, and Wilmington City Housing Code inspections every one to three years. A Rehabilitation Specialist, trained in the City's Housing Code, conducts annual inspections. The reviews of annual income and rent determinations are conducted by the Program Administrator.

The HOME Program Administrator conducts annual income/rent determinations, while a trained Rehabilitation Specialist inspects all units for compliance with City Housing Code Standards. There are

currently no outstanding findings regarding City of Wilmington Housing Code compliance or Income-Rent determinations for the monitored projects.

The City of Wilmington developed a Home Monitoring Log Tickler System to establish frequency of onsite HQS inspections of HOME rental units and annual tenant income certification reviews. All completed units must meet the City of Wilmington Housing Code Inspection standards and obtain a C of 0 from the Department of Licenses and Inspections. As part of ongoing, long-term HOME compliance, all units are monitored annually for tenant income determination eligibility, HOME rents. City of Wilmington Housing Code Standards inspections are conducted every one to three years, according to the number of units in the project. Additionally, the City of Wilmington has reviewed the recent HOME regulation changes and is incorporating the necessary language into our contracts and other documents as deemed appropriate to be in compliance.

## **Expected Resources**

### **AP-15 Expected Resources – 91.220(c)(1,2)**

#### Introduction

Funding for FY 2025 will be expended as indicating in the following table of anticipated resources.

**Anticipated Resources**

#### **Table 56 - Expected Resources - Priority Table**

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Additional resources will be leveraged from the Delaware State Housing Authority and local and regional foundations.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City of Wilmington works closely with the Wilmington Neighborhood Conservancy Land Bank to reclaim vacant, blighted, and abandoned properties in the City. Land acquired by the land bank is donated to the City when deemed appropriate to further this mission.

Discussion

Table 57 – Goals Summary

### **Goal Descriptions**

| 1 | Goal Name               | Planning/Administration  |
|---|-------------------------|--|
|   | <b>Goal Description</b> | Support administration and delivery of CDBG, HOME, ESG, and HOPWA activities.  |
|   | Goal Name               | Provide Public Services  |
| 2 | Goal Description        | The City will provide support for services serving non-homeless youths, families, elderly and other special needs groups in need of assistance to improve their quality of life. Activities include vocational services, life skills training, education assistance programs, and financial literacy programs for both adults and youth.   |
|   | Goal Name               | Improve Public Facilities and Infrastructure   |
| 3 | Goal Description        | Improvements to public facilities and infrastructure and facilities that deliver public services. Infrastructure improvements include solid waste disposal, flood drains, water/sewer, streets, sidewalks, streetscapes, neighborhood facilities, and parks and recreational facilities. Public facilities include those that serve youth/children, abused and neglected children, seniors, persons with disabilities and other vulnerable populations.  |
|   | Goal Name               | Increase Access, Supply & Quality of Housing   |
| 4 | Goal Description        | Extend the useful life of existing affordable housing through weatherization, repair, and rehabilitation programs and expand the supply and improve the condition of housing affordable to lower income households, including new construction and leveraging other public and private resources such as Low Income Housing Tax Credits to make housing more available to low- and moderate-income households. Increase access to housing through homebuyer assistance programs.   |
|   | Goal Name               | Provide Housing/Services to Homeless & At-Risk   |
| 5 | Goal Description        | The City will use CDBG and ESG funds to support shelter and housing operations. Acquisition, construction, or rehabilitation of temporary shelters and transitional housing for the homeless, including victims of domestic violence, veterans, disaster victims, families with children, unaccompanied youth, drug offenders, and formerly incarcerated persons. Provide funding to increase permanent supportive housing opportunities and work to create a stronger network of providers of supportive and mainstream services to homeless clients. |
| 6 | Goal Name               | Provide Housing/Services to HIV/AIDS Population  |

## Goal Description The City will use HOWPA funds to address the housing needs of people living with HIV/AIDS. Activities include TBRA, STRMU, permanent housing, supportive services, case management, and medical services.

Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.215(b)

Through rehabilitation, new construction, homebuyer assistance, tenant based rental assistance, and rapid rehousing, the City of Wilmington estimates to provide affordable housing to 85 extremely low-income, 125 low-income, and 85 moderate-income families during PY 2025.

## **Projects**

## AP-35 Projects – 91.220(d)

#### Introduction

The following is a list of CDBG, HOME, ESG and HOPWA activities that the City of Wilmington will undertake in FY 2025.

#### **Projects**

Table 58 – Project Information

## Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

The majority of Wilmington's projects, including public service, housing, public facility, and public infrastructure activities, are selected through a competitive process. All CDBG projects and programs funded in 2025 were chosen because they address the high priority needs identified through the Needs Assessment. Projects selected for CDBG funding were prioritized on efficient utilization of non-CDBG funds and ability to serve the largest number of beneficiaries.

### **AP-38 Project Summary**

### **Project Summary Information**

|   | Project Name  | CDBG Administration   |
|---|---|---|
|   | Target Area   | City-wide   |
|   | Goals Supported   | Planning/Administration   |
|   | Needs Addressed   | Planning/Administration   |

|   | Project Name  | Homebuyer Program  |
|   | Target Area   | City-wide  |
|   | Goals Supported   | Increase Access, Supply & Quality of Housing   |
|   | Needs Addressed   | Increase Access, Supply & Quality of Housing   |
|   | Funding   | CDBG: \$250,000  |
| 5 | Description   | This is a program for first-time homebuyers, persons who have not owned a home in the past three years, or for displaced homemakers and single parents. Funding may be used for down payments or closing costs. Eligible properties for the program are limited to single-family homes that will serve as the prospective homebuyer's primary residence within the City of Wilmington. |
|   | Target Date   | 06/30/26   |
|   | Estimate the number and type of families that will benefit from the proposed activities | Direct financial assistance to homebuyers: 15 households   |
|   | Location Description  | City-wide  |
|   | Planned Activities  | Homebuyer assistance   |
|   | Project Name  | Wilmington Neighborhood Street Tree & Greening Program   |
|   | Target Area   | City-wide  |
| 6 | Goals Supported   | Improve Public Facilities & Infrastructure   |
|   | Needs Addressed   | Improve Public Facilities & Infrastructure   |

|   | Funding   | CDBG: \$85,000   |  |  |  |  |
|---|---|--|--|--|--|--|
|   | Description   | The Neighborhood Street Tree & Greening Program serves to reduce and eliminate urban blight by managing and restoring the urban tree canopy by focusing efforts on low-income areas, which also typically have less trees. Plantings will be timed and coordinated with the completion of housing construction and redevelopment projects to provide equal access to trees as a shared community resource. A strategy to determine the best green locations will also be utilized via GIS, taking into account income levels, MVA market indicators, impervious surfaces, current tree canopy, asthma rates, flood claims, major roads, vacant lots, local institutions, public amenities, and public green space. |  |  |  |  |
|   | Target Date   | 06/30/26   |  |  |  |  |
|   | Estimate the number and type of families that will benefit from the proposed activities | Public Facility or Infrastructure other than Low/Moderate Income<br>Housing Benefit: 90 persons  |  |  |  |  |
|   | Location Description  | City-wide  |  |  |  |  |
|   | Planned Activities  | Tree plantings in income-eligible areas.   |  |  |  |  |
|   | Project Name  | Ingleside Senior Services Housing Rehabilitation   |  |  |  |  |
|   | Target Area   | City-wide  |  |  |  |  |
|   | Goals Supported   | Increase Access, Supply & Quality of Housing   |  |  |  |  |
|   | Needs Addressed   | Increase Access, Supply & Quality of Housing   |  |  |  |  |
|   | Funding   | CDBG: \$110,000  |  |  |  |  |
| 7 | Description Target Date   | The project addresses home repairs and safety modifications essential for older homeowners that will enable them to remain independent. Services include home safety inspections, home repairs, fall prevention measures, and social services.  06/30/26   |  |  |  |  |
|   | Estimate the number and type of families that will benefit from the proposed activities | Homeowner housing rehabilitated: 40 housing units  |  |  |  |  |
|   | Location Description  | City-wide  |  |  |  |  |
|   | Planned Activities  | Home repairs and safety modifications for older homeowners.  |  |  |  |  |
|   | Project Name  | Woodlawn Trustees - Rehabilitation of 4 Single-Family Homes  |  |  |  |  |
|   | Target Area   | City-wide  |  |  |  |  |
| 8 | Goals Supported   | Increase Access, Supply & Quality of Housing   |  |  |  |  |
|   | Needs Addressed   | Increase Access, Supply & Quality of Housing   |  |  |  |  |
|   | Funding   | CDBG: \$80,000   |  |  |  |  |
|   | i unung   | CD DG. 900,000   |  |  |  |  |

|    | Description Target Date   | The project involves the rehabilitation of four (4) single-family homes currently owned by Woodlawn Trustees. The rehabilitation will consist of lead removal, new roofs, HVVAC and plumbing, electricity, and other work to bring the properties up to City code. The units will be rented to families whose income does not exceed 80% of HUDs median income |
|----|---|--|
|    | Target Date  Estimate the number and  | 00/30/20   |
|    | type of families that will benefit from the proposed activities                         | Rental units rehabilitated: 4 housing units  |
|    | Location Description  | 1101 Pine Street, 1103 Pine Street, 416 Shearman Street, and 705 Pine Street   |
|    | Planned Activities  | Lead removal, new roofs, HVVAC and plumbing, electricity, and other work to bring the properties up to City code.  |
|    | Project Name  | Interfaith Community Housing - West Center Place   |
|    | Target Area   | City-wide  |
|    | Goals Supported   | Increase Access, Supply & Quality of Housing   |
|    | Needs Addressed   | Increase Access, Supply & Quality of Housing   |
|    | Funding   | CDBG: \$287,700  |
| 9  | Description   | West Center Place is a 55-unit, scattered-site rental apartment project serving low-to moderate-income households. Comprehensive revitalization is underway to modernize all 55 units. While there are a number of renovation needs, funding for this program year will be used to complete roofing repairs/replacements and HVAC system replacements.         |
|    | Target Date   | 06/30/26   |
|    | Estimate the number and type of families that will benefit from the proposed activities | Rental units rehabilitated: 25 housing units   |
|    | Location Description  | 622 Jefferson St, Wilmington, DE 19801   |
|    | Planned Activities  | Rehabilitation of roof and HVAC.   |
|    | Project Name  | Imani Commons at Imani Village   |
| 10 | Target Area   | City-wide  |
|    | Goals Supported   | Improve Public Facilities & Infrastructure   |
|    | Needs Addressed   | Improve Public Facilities & Infrastructure   |
|    | Funding   | CDBG: \$297,665  |
|    | Description   | Construction of a one-acre park to serve as a community hub for the Imani village and the Riverside neighborhood. Potential features include playgrounds, splash pads, a community event plaza, fitness areas, outdoor classrooms, walking paths, and more.  |
|    | Target Date   | 06/30/26   |

|    | Estimate the number and type of families that will benefit from the proposed activities | Public Facility or Infrastructure other than Low/Moderate Income<br>Housing Benefit: 1,230 persons  |
|----|---|---|
|    | Location Description  | Riverside neighborhood - Tract 30.02, Block Group 2   |
|    | Planned Activities  | Construction of a one-acre park.  |
|    | Project Name  | Catholic Charities Bayard House Residential Maternity Program   |
|    | Target Area   | City-wide   |
|    | Goals Supported   | Provide Housing/Services to Homeless & At-Risk  |
|    | Needs Addressed   | Provide Housing/Services to Homeless & At-Risk  |
|    | Funding   | CDBG: \$25,000  |
| 11 | Description   | Catholic Charities' Bayard House's Residential Maternity Program provides safe shelter, access to nutritious food, appropriate medical and behavioral healthcare, and other support for basic needs for its residents. Additionally, residents are given services which increase their knowledge, skills, and capacity to become self-sufficient members of the community. Residents are homeless, pregnant, and newly parenting adolescents and young women (ages 12 to 27) in their first or second pregnancy trimester who may also have custody of one or two toddlers. |
|    | Target Date   | 06/30/26  |
|    | Estimate the number and type of families that will benefit from the proposed activities | Homeless Person Overnight Shelter: 20 persons   |
| -  | Location Description  | 300 Bayard Ave, Wilmington, DE 19805  |
| _  | Planned Activities  | Operating funds for transitional housing services.  |

|    | Goals Supported   | Provide Housing/Services to Homeless & At-Risk   |
|    | Needs Addressed   | Provide Housing/Services to Homeless & At-Risk   |
|    | Funding   | CDBG: \$20,000   |
| 16 | Description   | Centralized Intake (CI) is a vital component of Housing Alliance of DE's (HAD) efforts to prevent & end homelessness in DE. CI staff work with homeless assistance providers to conduct a standard assessment that determines eligibility & priority for HUD-funded homeless housing resources such as Rapid Re-Housing (RRH) & Permanent Supportive Housing (PSH). CI's standardized assessment tool uses CMIS data to help make this determination. The goal of the standardized assessment is to prioritize limited resources for those most in need & provide clarity/transparency around resource eligibility, removing multiple or confusing requirements. |

| 27 | Description Target Date   | The Central YMCA Residence provides safe and affordable Single - Room Occupancy (SRO) housing in downtown Wilmington for men that are low-to-moderate income and are working towards stability and self-sufficiency. The Central YMCA's Housing Program is the largest single housing provider in the city and is a vital partner aligned with the Wilmington's goals to provide supportive housing for those with special needs and for men transitioning to stable housing. The YMCA maintains 180 single-room (SRO) units that provide housing and supportive services to men, many of whom arrive unable to pay the first month's rent. Once housed, support from the city of Wilmington allows the Central YMCA to provide rental assistance and help cover basic needs.  06/30/26 |

#### AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

Assistance is not directed to any specific geographic area in the City of Wilmington. All funding will benefit LMI clientele and areas throughout the municipality.

#### **Geographic Distribution**

| Target Area | Percentage of Funds |
|-------------|---------------------|
| City-wide   | 100%                |

**Table 59 - Geographic Distribution** 

#### Rationale for the priorities for allocating investments geographically

Not all the housing and community development needs identified in this plan can be addressed over the next five years due primarily to the limited resources available. The selection of non-housing community development priorities within income-eligible areas reflects the City's desire to create appreciable and lasting living environment improvements. Housing priorities reflect the need to broaden the supply of affordable housing in high opportunity areas.

The system for establishing priority for the selection of these projects is predicated upon the following criteria:

- Meeting the statutory requirements of the CDBG Programs;
- Meeting the needs of low- and moderate-income residents;
- Focusing on low- and moderate-income areas or neighborhoods;
- Coordination and leveraging of resources;
- Response to expressed needs;
- Sustainability and/or long-term impact; and
- The ability to demonstrate measurable progress and success.

#### Discussion

## **Affordable Housing**

# AP-55 Affordable Housing – 91.220(g)

#### Introduction

| One Year Goals for the Number of Households to be Supported |     |
|---|-----|
| Homeless  | 120 |
| Non-Homeless  | 94  |
| Special-Needs   | 82  |
| Total   | 296 |

Table 60 - One Year Goals for Affordable Housing by Support Requirement

| One Year Goals for the Number of Households Supported Through |     |
|---|-----|
| Rental Assistance   | 202 |
| The Production of New Units                                   | 7   |
| Rehab of Existing Units                                       | 87  |
| Acquisition of Existing Units                                 | 0   |
| Total   | 296 |

Table 61 - One Year Goals for Affordable Housing by Support Type Discussion

Rental assistance includes 120 households assisted through rapid rehousing and 82 HOPWA units. The seven new units are being produced solely by Habitat for Humanity of New Castle County's Prices Run Affordable Homeownership Program. Housing rehab includes home repair and rehabilitation programs operated by the City of Wilmington, Woodlawn Trustees, Interfaith Community Housing, Ingleside Senior Services Housing Rehabilitation Program, and Cornerstone West Community Development Corporation.

## **AP-60 Public Housing – 91.220(h)**

#### Introduction

The WHA manages and maintains 1,816 units, with 1,390 units occupied. While most of these properties are in areas of concentrated poverty and/or minorities, most of Wilmington also falls within these categories. Demand for public housing far outweighs supply of housing; the waiting list for public housing is closed. WHA is looking at other financing sources and housing opportunities to fulfill the demand for affordable housing.

#### Actions planned during the next year to address the needs to public housing

The following strategies were outlined in WHA's FY 2025 Annual Action Plan, with an added emphasis on working with landlords to increase housing availability for HCV holders when compared to the 2024 Annual Action Plan.

- Maximize the number of affordable units available to the PHA within its current resources by expediting repairs, constant monitoring, implementing energy efficiency programs, expedite the issuing, processing, and transition of HCV holders, and setting reasonable payment standards and occupancy standards, and assisting Public Housing residents and HCV participants to become self-sufficient.
- Increase the number of affordable housing units by applying for additional Section 8
  units should they become available, pursue housing resources other than public housing
  or Section 8, replace units lost through the Section 32 Homeownership Program and
  mixed finance development, and use Replacement Housing Factor funds to
  construct/purchase new affordable housing, and collaborate with current and future
  landlords to increase housing availability for HCV participant families
- Target available assistance to families by continuing admissions preferences aimed at
  working families, enforcing rent policies supporting and encouraging work, apply for
  special-purpose vouchers for the elderly and persons with disabilities, carry out
  modifications based on Section 504 needs, and affirmatively marketing to local
  nonprofits that assist families with disabilities
- Conduct activities to affirmatively further fair housing by continuing participation with
  the Delaware State Consortium on Affirmatively Furthering Fair Housing, counseling,
  and assisting Section 8 tenants on units available outside of racially and ethnically
  concentrated areas of poverty (R/ECAPs), market the Section 8 program to owners
  residing outside of R/ECAPs, and expand partnerships with the State of Delaware and
  local housing authorities to reduce barriers and create more streamlined services for
  participation Section 8 landlords and voucher holders.

Actions to encourage public housing residents to become more involved in management and

#### participate in homeownership

Each public housing property has an elected Resident Council to discuss and make recommendations on PHA plans. In addition to input, Resident Councils also collaborate and coordinate with WHA's Resident Services Department for capacity building, self-sufficiency, and program planning for residents.

The WHA goals and activities support homeownership.

- Continue to partner with agencies that provide financial management/credit services and housing counseling. This effort continues to foster relationships with new partners; HOND (Housing Opportunities of Northern Delaware), ABC Consulting, Interfaith Community Housing of Delaware, Neighborhood House, Meridian Bank, Artisans Bank, Huntington Valley Bank, PNC Bank, TD Bank, Stand-By-Me, Fresh Start and Kiss your Landlord Goodbye, Service Source, Credit Repair with Steven Byrd, Community Powered FCU, Keller Williams, eXp Realty LLC and Stepping Stones FCU.
- The Section 32 Comprehensive Homeownership (HO) Program
  - WHA will continue to provide active case management services to ROSS and FSS participants in the HO program to become ready future homebuyers or future market renters. There are currently 12 units in the Section 32 Homeownership Program.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

Wilmington Housing Authority is not designated as troubled.

Discussion

# AP-65 Homeless and Other Special Needs Activities – 91.220(i) Introduction

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

# Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City's federal funds will continue to support programs to provide decent and safe living environments for the homeless and those at risk of becoming homeless in FY 2025. Activities funded expecting to assist the homeless or those at-risk of becoming homeless include emergency shelter operations, housing rehabilitation, and other critical expenses, and rapid rehousing.

While no street outreach activities are funded in FY 2025, the City maintains support for the YMCA, YWCA, Catholic Charities, Ministry of Caring, Homeless Planning Council, Family Promise, Connection CSP and Salvation Army, which work together to provide outreach to the homeless population, including unsheltered persons. Several of the nonprofit social and human service agencies that provide services to the homeless and those at risk of becoming homeless leverage additional private funds used to operate emergency shelters, transitional housing facilities, and supportive housing facilities within Wilmington. These funds are also used to provide supportive services such as case management, counseling, job training, and life skills classes.

#### Addressing the emergency shelter and transitional housing needs of homeless persons

Wilmington is a member of the Delaware Continuum of Care (CoC), the primary program in the State addressing homelessness led by Housing Alliance Delaware. In their 2024 System Performance Measures, Housing Alliance Delaware identified that 83.4% of persons entering the system had no prior experience of homelessness, up from 68% in 2018.

Housing Alliance Delaware administers Centralized Intake services to coordinate access to emergency shelter, rapid re-housing, and permanent supportive housing. The CoC practices a Housing First model, providing shelter for individuals regardless of personal hardships or circumstances. Homeless services can be accessed through the Delaware 211 hotline, State Service Centers, or local homeless service providers such as a shelter or day center. Housing Alliance Delaware's HMIS system will be supported through the use of \$20,000 in ESG funds.

Emergency shelter and transitional housing needs will be supported in FY 2025 through Ministry of Caring's Emergency Solutions Program at four emergency shelter facilities. In addition to shelter, these facilities providing food, childcare, job placement services,

distribution services, outreach, and case management. The program is expected to assist 350 individuals with emergency shelter through the use of \$50,000 in ESG funds.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

According to Housing Alliance Delaware, the highest risk of returning to homelessness after moving into housing occurs in the first twelve months. As a result, availability of services is most critical in the first year after returning to housing. The services mentioned previously also serve to help formerly individuals from becoming homeless again and maintain permanent housing. Additionally, stakeholders frequently mentioned the need for wraparound services to prevent homeless individuals from re-entering the system.

As part of many service providers' emergency shelter and/or homeless prevention programs, supportive services to ensure that their clients able to maintain permanent housing in the long-term are provided. Activities planned for funding in FY2025 that provide these wraparound services include the Bayard House Residential Maternity Program for newly parenting young women (ages 12 to 27), Hospitality Center Transitional Housing and for families facing homelessness, Sojourner's Place's Transitional Housing program for adults, Central YMCA's Male Supportive Housing Program for single men, and YWCA's Home-Life Management Center for families. In total, nearly \$259,500 in CDBG funds and \$182,988 in ESG funds will be used to help prevent these vulnerable populations from becoming homeless again.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

In addition to the previously mentioned homelessness prevention activities, the City of Wilmington plans to fund activities targeting youth aging out of the foster care system or are at risk of homelessness. West End Neighborhood House will receive \$45,969 in ESG funds to assist homeless youth aged 18-23 at their dedicated drop-in center. Transportation is offered to youths even without an appointment and provides access to essential services such as showers, laundry facilities, meals, mailboxes, and lockers. Case management is also provided to connect

youths with shelter and other temporary housing solutions while more permanent housing accommodations are secured.

Additionally, West End Neighborhood House's Life Lines program provides essential low-income housing for former foster care and homeless youth, ensuring safe, stable living environments for individuals and families. Beyond housing, the program offers intensive case management, mental health support, substance abuse treatment, employment assistance, and educational resources.

#### AP-75 Barriers to affordable housing – 91.220(j)

#### Introduction:

According to stakeholders, the general lack of housing supply and mismatch of available jobs compared to the existing workforce's level of education and training make finding affordable housing difficult for residents. Other issues such as mental health, physical disabilities, lack of certifications and licenses, and childcare create additional challenges for finding appropriate, affordable housing.

Developers cite high costs for new construction as their biggest barrier to developing affordable housing. Wilmington is almost entirely developed, making new construction costly. There is a need for sufficient secondary subsidies if the City wants to pursue new construction. As a result, rehabilitation will be the primary focus for generating new affordable housing options, especially due to the age of housing in the City.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

With the City of Wilmington being almost entirely developed, there is an emphasis on housing rehabilitation to bring housing up to code and due to difficulties in constructing new housing due to high costs and lack of space. In FY 2025, expects to invest \$737,238 in CDBG funds and \$631,876 in HOME funds to build 7 new townhomes and rehabilitate 55 owner-occupied housing units and 32 renter-occupied housing units.

Additionally, the City's Department of Real Estate and Housing (RE&H) is going to continue to offer the First Start Homebuyer Program for income-eligible households, which will receive \$259,538 in CDBG funds. Each applicant will be eligible for assistance totaling the lesser of \$15,000 or 6% of a property purchase price. A minimal contribution of \$1,000 is required from the buyer. The funds may be used for down payments or closing costs. It is expected that 15 households will receive assistance just from CDBG funds.

#### **Discussion:**

#### **AP-85 Other Actions – 91.220(k)**

#### Introduction:

Over the next year, Wilmington plans the following actions to help address the housing and community development needs of City residents, especially low and moderate-income residents.

#### Actions planned to address obstacles to meeting underserved needs

The City will continue to cooperate with various non-profit agencies and developers to implement its Five-Year Strategy and to address the specific needs of special needs populations identified in the plan. One of the strengths of the delivery system is the existing collaborative network of service providers and housing providers. This includes the CoC, nonprofit and private developers, and other government agencies. In addition, the Department of Real Estate and Housing provides an experienced staff and well-organized program for initiating public programs that can be affirmatively marketed to special needs populations and persons experiencing homelessness.

#### Actions planned to foster and maintain affordable housing

The City of Wilmington plans to continue operating it's Home Repair Program and First Start Home Buyer Program to help income-eligible households maintain their homes or attain their first one. The HOME program will continue to deliver quality affordable housing, with Cornerstone West rehabilitation three units on W 3<sup>rd</sup> Street in Wilmington's West Side and Habitat for Humanity of New Castle County constructing seven new townhouses in the Prices run neighborhood on vacant and underutilized land.

#### Actions planned to reduce lead-based paint hazards

In 2022, New Castle County received \$3.3 million for the No Lead Program, \$2 million for the Healthy Homes Production Grant Program, and \$8.7 million grant through the Lead Hazard Reduction Grant Program. The No Lead Program was established in 2019. While it was initially limited to five ZIP codes in the county, the additional funding will expand the program to all ZIP codes in the county, with an expected 330 housing units to receive assistance. Households with children under the age of 6, with pregnant women, or those residing in homes built before 1978 are eligible for the program.

The Healthy Homes Program is a county-wide program designed to identify hazards such as radon, carbon monoxide, lead hazard, damp & mold, leaking roofs, excess heat and/or cold, falls in bathroom, electrical hazards, structural collapse, lighting issues, pests & food safety, or unsafe windows and doors through a Healthy Homes Assessment. Eligible households include

those with seniors over the age of 62 years, persons with disabilities, or children under the age of 18 years.

Additionally, WHA received \$5 million through HUD's Capital Fund Lead-Based Paint Program in September 2023 to reduce residential hazards in public housing. The program will attempt to remediate any lead contaminants from all WHA housing inventory over the five-year grant period.

#### Actions planned to reduce the number of poverty-level families

The City of Wilmington and local service providers have developed goals, programs, and policies to reduce poverty and improve access to affordable housing. In Wilmington's 2028 Comprehensive Plan, which was updated in July 2019, the City set forth a goal area for the creation of "Strong and Safe Neighborhoods." Goals under this umbrella addressing poverty and its effects include promoting walkable neighborhoods to improve access to jobs, services, and amenities; increasing access to quality housing that is affordable and offers choice; reducing neighborhood blight and crime; ensuring neighborhoods have access to high quality, welcoming public spaces and recreation; and supporting neighborhood character cohesion and pride. Established programs that will be continued or created to address this goal include the Neighborhood Stabilization Program, the Wilmington Community Advisory Committee, and partnerships between local businesses, institutions, and organizations.

These poverty reducing measures serve to improve access to affordable housing by preventing and mitigating the effects of poverty. Stakeholders mentioned high eviction rates and an inability to obtain quality employment and wages as major barriers to obtaining affordable housing. The HOPE Commission's re-entry programs directly mitigate these barriers for the formerly incarcerated, and the RISE programs serve to prevent these effects through youth engagement.

The City is looking to develop new measures and strategies to create more resilient communities, as outlined in their comprehensive plan.

#### Actions planned to develop institutional structure

To address the shortage of affordable housing options, both the City and WHA are pursuing options to increase the supply of housing. The City is continuing rehabilitation and home repair efforts along with partnerships with local developers to efficiently make use of federal and non-federal dollars. WHA is planning to apply for additional Section 8 units should they become available, pursue other housing resources besides public housing or Section 8 tenant-based vouchers, replace lost public housing units using the Section 32 Homeownership Program and

mixed finance development, and use Replacement Housing Factor funds for acquisition and new construction.

# Actions planned to enhance coordination between public and private housing and social service agencies

The City will continue to cooperate with various non-profit agencies and developers to address the specific needs of special needs populations identified in the plan. One of the strengths of the delivery system is the existing collaborative network of service providers and housing providers. This includes the CoC, nonprofit and private developers, and other government agencies. In addition, the Department of Real Estate and Housing provides an experienced staff and well-organized program for initiating public programs that can be affirmatively marketed to special needs populations and persons experiencing homelessness.

# **Program Specific Requirements**

## AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

#### Introduction:

# Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

| 1. The total amount of program income that will have been received before     | \$169,000 |
|---|-----------|
| the start of the next program year and that has not yet been reprogrammed     |           |
| 2. The amount of proceeds from section 108 loan guarantees that will be       | 0         |
| used during the year to address the priority needs and specific objectives    |           |
| identified in the grantee's strategic plan                                    |           |
| 3. The amount of surplus funds from urban renewal settlements                 | 0         |
| 4. The amount of any grant funds returned to the line of credit for which the | 0         |
| planned use has not been included in a prior statement or plan.               |           |
| 5. The amount of income from float-funded activities                          | 0         |
| Total Program Income  | \$169,000 |

#### **Other CDBG Requirements**

| 1. The amount of urgent need activities | 0 |
|---|---|
|---|---|

# HOME Investment Partnership Program (HOME) Reference 24 CFR 91.220(I)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City of Wilmington does not intend to use other forms of investment to fund HOME programs.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

In addition to the following information, the City of Wilmington's Program Policies and Procedures Manual and HOME Resale and Recapture Policy is also attached.

The City of Wilmington imposes resale restrictions on the total HOME investment, which includes direct acquisition, construction, or development contributions, soft costs, and

project delivery costs (if any) made to both the developer and the homebuyer. Resale restrictions require deed restrictions and covenants, which are attached to the property and restrict the homeowner's sale of the property (during the period of affordability) only to a low-income family that will use the property as their principal residence. The term "lowincome family" shall mean a family whose gross annual income does not exceed 80% of the median family income for the geographic area as published annually by HUD. As a guideline, the purchasing family should pay no more than 30% of its gross family income towards principal, interest, taxes, and insurance for a property on a monthly basis. The housing must remain affordable to a reasonable range of low-income buyers for the period described in the HOME regulations. At a minimum, the subsequent property owner will be subject to the remaining affordability period on the property. Resale guidelines are allowed in situations where there is a development subsidy only. If the homeowner receives a homebuyer subsidy, then the recapture guidelines must be followed. The original homebuyer, now the seller, must receive a "fair return" on their investment, which is defined as the homebuyer's initial investment of down payment and settlement costs and the cost of any capital improvements.

#### **Recapture Guidelines**

The amount of HOME funds subject to recapture is based on the amount of HOME assistance that enabled the homebuyer to buy the dwelling unit. This includes any assistance that reduced the purchase price from the fair market value to an affordable price but excludes the amount between the cost of producing the unit and the market value (development subsidy). For first-time homeowner loans, the City of Wilmington has adopted the recapture method, with forgiveness, based on the length of time the homebuyer occupies the home in relation to the affordability period.

#### **Lease Purchase**

The City of Wilmington has adopted a lease/purchase policy for the federally funded projects including CDBG and HOME. A copy of the policy is available for public inspection at the City of Wilmington Department of Real Estate and Housing.

Additional information may be found in The Department of Real Estate and Housing's HOME Policy and Procedure manual.

- 3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:
  - See previous question.
- 4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that

will be used under 24 CFR 92.206(b), are as follows:

Not applicable. The City does not plan to refinance any existing debt secured by multi-family housing that is being rehabilitated with HOME funds.

5. If applicable to a planned HOME TBRA activity, a description of the preference for persons with special needs or disabilities. (See 24 CFR 92.209(c)(2)(i) and CFR 91.220(l)(2)(vii)). <TYPE=[text] REPORT\_GUID=[A0BBB986408D8C25582AC4BE59FA99C5]>

Not applicable. A HOME TBRA activity is not planned.

- 6. If applicable to a planned HOME TBRA activity, a description of how the preference for a specific category of individuals with disabilities (e.g. persons with HIV/AIDS or chronic mental illness) will narrow the gap in benefits and the preference is needed to narrow the gap in benefits and services received by such persons. (See 24 CFR 92.209(c)(2)(ii) and 91.220(l)(2)(vii)).
- 7. Not applicable. A HOME TBRA activity is not planned.
- 8. If applicable, a description of any preference or limitation for rental housing projects. (See 24 CFR 92.253(d)(3) and CFR 91.220(l)(2)(vii)). Note: Preferences cannot be administered in a manner that limits the opportunities of persons on any basis prohibited by the laws listed under 24 CFR 5.105(a).

Not applicable, there is not currently a preference or limitation for any of the current rental housing projects.

# Emergency Solutions Grant (ESG) Reference 91.220(I)(4)

1. Include written standards for providing ESG assistance (may include as attachment)

See attached written standards and the RFP process in the Appendix.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

Beginning in 2014, all communities receiving homeless assistance funds from the U.S. Department of Housing and Urban Development (HUD) are required to have a coordinated process by which households experiencing homelessness are assessed and prioritized for services and housing. Housing Alliance Delaware administers Centralized Intake in partnership with a variety of homeless assistance providers throughout the state.

Centralized intake services can be accessed through the following methods:

- Direct phone call to CI staff at Housing Alliance DE
- Delaware 211 hotline
- State service center
- Local shelters or day centers

Clients are assessed in-person using VI-SPDATs (Vulnerability-Index Service Prioritization Decision Assistance Tool) as a triage tool to determine the most appropriate housing intervention. Assessment prioritizations are conducted as follows according to CI Policies and Procedures:

#### A. Emergency Shelter

Entry into emergency shelter is not prioritized based on the severity of service needs of clients/households. Any client who is literally homeless can be referred for an opening at a shelter. No vulnerability assessment is needed for referral to emergency shelter.

Entry into emergency shelter is prioritized for households who are currently sleeping in a place not meant for human habitation (car, park, abandoned building, tent, street, etc.).

Intake staff keeps a daily log of households that report living in an unsheltered situation and follow up with those clients each day to determine if they are still in need of shelter and offer open shelter beds to those households first each day.

#### B. Permanent Housing Resources

Entry into Rapid Rehousing (RRH) and Permanent Supportive Housing (PSH) programs is prioritized by severity of service need. Centralized Intake refers directly to Rapid Re-Housing (RRH) and Permanent Supportive Housing (PSH) resources in all three counties in Delaware. The VI-SPDAT (Vulnerability Index - Service Prioritization Decision Assistance Tool) is Delaware's standard assessment tool. Clients and households are prioritized for RRH and PSH in Delaware based on the severity of their service needs - as determined by the VI-SPDAT - and in alignment with Delaware CoC's RRH and PSH program standards. Once HAD staff receives the VI-SPDAT the score is recorded, along with identifying information, client location, household composition, veteran status, and other pertinent information as necessary. HAD staff reviews responses in the VI-SPDAT and all other available information, including the client's profile in CMIS, to assess if the client may meet the criteria for chronic homelessness (as defined by HUD). All PSH resources in Delaware are prioritized or dedicated to serving people experiencing

chronic homelessness. If the client appears to meet the criteria for chronic homelessness, the client will be assessed by a Housing Specialist to see if they are indeed chronically homeless. If they are, they are added to the Permanent Supportive Housing (PSH) priority list in CMIS. Housing Specialists work to assist these clients with obtaining the proper documentation to verify their chronic homeless status. In some cases, full documentation is not required in order to be referred to a PSH program. Any household that is not chronically homeless is added to the RRH prioritization list.

#### C. Transitional Housing

Entry into Transitional Housing (TH) is prioritized by severity of service need, which is determined – in part – by VI-SPDAT score. Centralized Intake refers directly to two TH providers in New Castle County that serve households with minor children. Households are identified as potential candidates for open units of TH from the RRH by-name priority list.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

See attached written standards and the RFP process is in the Appendix.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

See attached written standards and the RFP process in the Appendix. Representation by a person who is homeless or formerly homeless is provided through the CoC.

5. Describe performance standards for evaluating ESG.

Each program is reviewed for meeting project goals and benchmarks during:

- Desk Audits
- Performed when draw requests are made
- Monthly Performance and Direct Beneficiary Reports
- Tracks and evaluates program performance outcomes
- Onsite HUD compliance reviews
- Conducted annually and includes review of supporting documentation

In addition, the City is working with the Continuum of Care and other Emergency Solutions Grant recipients in the state. A Quarterly Project Performance Report has been created to review 7 components for performance.

#### CITIZEN PARTICIPATION PLAN (CPP) FOR WILMINGTON, DE

#### A. Introduction

#### Purpose

Pursuant to the citizen participation requirements of 24 CFR Part 91 and 24 CFR Part 5, the City of Wilmington Department of Real Estate & Housing (referred to as the "City"), set forth the following Citizen Participation Plan (the "Plan") as it relates to the administration of the Community Planning and Development (CPD) programs funded by the U.S. Department of Housing and Urban Development (HUD).

The Plan presents the City's intent for providing for and encouraging all citizens to participate in the development, revision, amendment, adoption, and implementation of:

- 1) The Citizen Participation Plan
- 2) The Consolidated Plan (CP)
- 3) The Annual Action Plan (AAP)
- 4) The Consolidated Annual Performance and Evaluation Report (CAPER), and
- 5) The Section 108 Loan Guarantee Program

#### Lead Agency

The City of Wilmington Department of Real Estate and Housing is the lead agency responsible for the administration of the Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), Emergency Solutions Grant (ESG), and Housing for Persons with HIV/AIDS (HOPWA) Programs.

#### Contact Person

All communication regarding the Plan, the Consolidated Plan, the Annual Action Plan, the CAPER, comments, complaints, reasonable accommodation for disabled persons, translation services, or other elements shall be directed to: Robert Weir, Department of Real Estate and Housing, 800 N. French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801; (302) 576-3000 *TTY 7-1-1* (*Delaware Relay Center*).

#### **Effective Date**

After approval of this amended Citizen Participation Plan by the Wilmington City Council, this Plan shall be effective until it is amended or otherwise replaced.

## B. Encouragement of Citizen Participation

#### General

The City provides for and encourages citizens to participate in the development, revision, amendment, adoption and implementation of the Citizen Participation Plan, the Consolidated Plan, the Annual Action Plan, and the CAPER. The City encourages participation by low- and moderate-income persons, particularly those living in areas designated as revitalization areas or in slum and blighted areas and in areas where HUD funds are proposed to be used, and by residents of predominantly low- and moderate-income neighborhoods. With respect to the public participation initiatives included in this Plan, the City will take appropriate actions to encourage the participation of all citizens, including minorities, non-English speaking persons, and persons with disabilities, as described below.

#### Non-English Speakers

To encourage non-English speaking residents to participate in the development of the Citizen Participation Plan, the Consolidated Plan, and the Annual Action Plan, the City will include the following language, in Spanish, in all advertisements in *The News Journal*:

La información será proporcionada en español por petición. (This information is available in Spanish, upon request.)

The City will provide a Spanish version of meeting agendas, handouts, and surveys at meetings and stakeholder interviews conducted for each planning process, if requested.

Where a significant number of non-English speaking residents can be reasonably expected to participate in a public meeting, an interpreter will be provided upon written request to the City's Department Real Estate and Housing no later than three (3) business days prior to the day of a public meeting.

#### Persons with Disabilities

Persons with disabilities requiring special accommodation to participate in public meetings should call the Contact Person, or a designee, no later than three (3) business days prior to the day of a meeting. The City will conduct all public meetings in locations that are handicapped-accessible, when available. If requested, the City will mail copies of public meeting notices to persons who are homebound and request such accommodation no less than seven (7) days prior to the public meeting.

All advertisements for public meetings will indicate such and include the following:

Persons requiring special accommodation or translation assistance can make arrangements at least three (3) business days in advance by contacting the Department of Real Estate & Housing at 302-576-3000 or <a href="mailto:realestatehousing@wilmingtonde.gov">realestatehousing@wilmingtonde.gov</a> TTY 7-1-1 (Delaware Relay Center)

#### Low- and Moderate-Income Persons

The City will conduct at least one public meeting in a neighborhood that contains at least 51% low- and moderate-income residents, based on current HUD data, during the development of the Consolidated Plan and the Annual Action Plan.

#### Organizations and Agencies

The City encourages the participation of local and regional institutions, the Continuum of Care, businesses, developers, nonprofit organizations, philanthropic organizations, and community-based and faith-based organizations in the process of developing, revising, amending, adopting and implementing all documents covered by this Plan. This will be achieved through stakeholder interviews, focus groups and/or public meetings.

#### Local Public Housing Authority(ies)

The City, in consultation with the Wilmington Housing Authority, encourages the participation of residents of any public housing development located within the City, in the process of developing, revising, amending, adopting and implementing the documents covered by this Plan. The City will provide information to the executive director of the housing authority about the Consolidated Plan activities related to the public housing developments and communities so that the housing authority can make this information available at the annual public hearings required for its Housing Authority Agency Plan.

The City encourages participation by resident advisory boards and resident councils of the housing authority. This will be carried out by providing information on public meetings, surveys and other outreach initiatives related to the documents covered by this Plan.

#### **Public Notices**

Public review/comment periods and public hearings held in the process of developing, revising, amending, adopting, and implementing the documents covered by this Plan shall be advertised in *The News Journal* no less than one (1) day before the public review and comment period commences and no less than fourteen (14) days before a public hearing is held.

#### **Public Hearings**

All public hearings will be scheduled at times and locations that are reasonably convenient for potential and actual program beneficiaries, and with accommodation for persons with disabilities and non-English speakers in accordance with this Plan. The City may provide a virtual participation link for individuals not wishing to attend the public hearing in person. Instructions for participating virtually will be included in all public notices.

#### Technical Assistance

The staff of the Department of Real Estate and Housing are available to assist organizations and other eligible entities that are interested in submitting a proposal to obtain funding through CDBG, HOME, ESG, and HOPWA programs. All potential applicants are strongly encouraged to contact the Contact Person, or a designee, for technical assistance before initiating a funding request application.

#### Online Access

The City will post draft copies and final copies of all documents covered by this Plan on its website accessible at: https://www.wilmingtonde.gov/government/housing

#### Other Engagement Techniques

The Plan may be amended as the City continues to gain access to technology that improves the avenues of participation by its residents.

## C. The Citizen Participation Plan

#### Plan Development

The City shall follow the following procedure when amending its Citizen Participation Plan.

#### a. Public Review of the Draft Plan

The draft Citizen Participation Plan will be made available for public review for a 15-day period prior to the City Council consideration and adoption and may be done concurrently with the public review and comment process for the Consolidated Plan. Copies of the draft Citizen Participation Plan will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the Citizen Participation Plan by contacting the Contact Person, or a designee.

#### b. Public Hearing

The City will conduct a public hearing to accept comments on the Citizen Participation Plan, or any amendments thereto, prior to its approval and submittal to HUD. This public hearing may be held concurrently with the public hearing held in conjunction with the Consolidated Plan and/or Annual Action Plan preparation.

#### c. Comments Received on the Draft Plan

Written comments will be accepted by the Contact Person, or a designee, during the 15-day public review period. The City will consider any comments or views of residents received in writing, or orally at the public hearing, in preparing the final Plan. A summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final Plan for submission to the City Council and to HUD.

#### d. City Council Action

Following the public display and comment period and the public hearing, the Plan will be presented to the City Council for consideration and formal action. A summary of all written comments and those received orally during the public hearing, as well as the City's responses to all written comments, will be attached to the Plan prior to submission to the City Council.

#### e. Submission to HUD

The Plan will be approved as a stand-alone document and submitted to HUD with a summary of all written comments and those received orally during the public hearing, as well as the City's responses to written comments and proof of compliance with the 15-day public review and comment period requirement. A summary of any comments or views not accepted and the reasons therefore shall be supplied to HUD as well.

#### Amendments to the Approved Citizen Participation Plan

The City shall follow the following procedure to amend its approved Citizen Participation Plan, as needed.

#### a. Amendment Considerations

The City will amend the Plan, as necessary, to ensure adequate engagement and involvement of the public in making decisions related to its HUD programs. Substantial amendments to the Citizen Participation Plan may be required should a provision of the Plan be found by the City to conflict with HUD regulations, or when changes in HUD regulations occur. Edits to the Plan that only include updated contact information or editorial changes for clarity will not be placed for a formal public review and comment period, nor will a public hearing or City Council action be required.

#### b. Draft Amended Plan Review

The draft Amended Plan will be made available for public review for a 15-day period prior to the City Council consideration and adoption and may be done concurrently with the public review and comment process for the Consolidated Plan or the Annual Action Plan. Copies of the draft Amended Plan will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the Amended Citizen Participation Plan by contacting the Contact Person, or a designee.

#### c. Comments Received on Draft Amended Plan

Written comments will be accepted by the Contact Person, or a designee, during the 15-day public review period.

#### d. Public Hearing

The City will conduct a public hearing to review and accept public comments on the draft Amended Plan prior to its approval and submittal to HUD. This public hearing may be held concurrently with the public hearing held in conjunction with the Consolidated Plan or the Annual Action Plan.

#### e. City Council Action

Following the public display and comment period and the public hearing, the Plan will be presented to the City Council for consideration and formal action.

#### f. Submission to HUD

A copy of the Amended Citizen Participation Plan, including a summary of all written comments and those received during the public hearing as well as the City's responses and proof of compliance with the minimum 15-day public review and comment period requirement, will be

submitted to HUD. A summary of any comments or views not accepted and the reasons therefore shall be supplied to HUD as well.

#### Plan Access

The approved Citizen Participation Plan, and any amendments, will be kept on file at the Department of Real Estate and Housing, 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801. The plan can be accessed online at: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the approved Amended Plan by contacting the Contact Person, or a designee.

#### In the Event of an Emergency or Disaster

In the event of a local, state or federally declared disaster or emergency where public places may be closed to the public or in-person participation may not be feasible or large gatherings may be considered a public health risk, the City may opt to forgo the public hearing for amendments to its Citizen Participation Plan. The length of public display and comment for amendments to the Citizen Participation Plan shall be no less than five (5) days, or some length of time as instructed by HUD. Draft documents for public comment and review will be made available on the City's website at https://www.wilmingtonde.gov/government/housing. Copies of the draft documents will be mailed or e-mailed upon request, if possible.

## D. The Consolidated Plan (CP)

#### Plan Development

The City will follow the process and procedures described below in the development of its Consolidated Plan (CP).

#### a. Stakeholder Consultation and Citizen Outreach

In the development of the CP, the City will consult with other public and private agencies including, but not limited to, the following:

- Wilmington Housing Authority
- Other assisted housing providers
- Social service providers including those focusing on services to minorities, families with children, the elderly, persons with disabilities, persons with HIV/AIDS and their families, homeless persons, and other protected classes
- Continuum of Care that serves the jurisdiction
- Community-based and regionally-based organizations that represent protected class members and organizations that enforce fair housing laws
- Business and civic leaders
- Organizations promoting economic and/or workforce development
- Regional government agencies involved in metropolitan-wide planning and transportation responsibilities
- Broadband internet service providers, organizations engaged in narrowing the digital divide
- Agencies whose primary responsibilities include the management of flood prone areas, public land or water resources
- Emergency management agencies
- Other related organizations and agencies

When preparing the portion of the CP concerning lead-based paint hazards, the City shall consult with local or state health and child welfare agencies and examine existing data related to lead-based paint hazards and poisonings, including health department data on the addresses of housing units in which children have been identified as lead-poisoned.

When preparing the description of priority non-housing community development needs, the City will notify adjacent units of local government, to the extent practicable. This shall involve, at a minimum, the City sending a letter to the chief elected official of each adjacent unit of government notifying them of the draft CP and how to access a copy online for review and comment.

A variety of mechanisms may be utilized to solicit input from these persons/service providers/agencies/entities. These include written letters, telephone, virtual or in-person interviews, mail surveys, internet-based feedback and surveys, focus groups, and/or consultation workshops.

#### b. Public Hearings

The City will conduct at least two public hearings during the development of the CP. The first public hearing will be conducted before the draft CP is published for public comment, during which time the City will address housing and community development needs, development of proposed activities, the amount of assistance the City expects to receive (including grant funds and program income), the range of activities that may be undertaken, including the estimated amount that will benefit low- and moderate-income residents, and a review of program performance.

The second public hearing will be conducted during or after the 30-day public comment period during which the City will address identified housing and community development needs and proposed eligible activities.

#### c. Potential Displacement of Persons

Although the City does not anticipate any residential displacement to occur in the foreseeable future, it is required to describe its plans to minimize the displacement of persons and to assist any persons displaced. When displacement is unavoidable on a temporary or permanent basis, the City will comply with the federal Uniform Relocation Act. Should displacement of residents be necessary as a result of the use of funds covered by this Plan, the City shall compensate residents who are actually displaced in accordance with *HUD Handbook No. 1378, Tenant Assistance, Relocation and Real Property Acquisition*.

This resource is accessible online at <a href="http://portal.hud.gov/hudportal/HUD?src=/program">http://portal.hud.gov/hudportal/HUD?src=/program</a> offices/administration/hudclips/handbook <a href="mailto:s/cpd/13780">s/cpd/13780</a>

#### d. Public Display and Comment Period

The draft CP will be placed on display for a period of no less than 30 days to encourage public review and comment. The public notice shall include a brief summary and purpose of the CP; the anticipated amounts of funding (including program income, if any); proposed activities likely to result in displacement, if any; plans for minimizing the displacement of persons as a result of CDBG or HOME activities, if any; plans to assist persons actually displaced by the project, if any; the dates of the public display and comment period; the locations where copies of the draft CP can be examined; how comments will be accepted; when the document will be considered for action by the City Council; and, the anticipated submission date to HUD. Copies of the draft CP will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the draft CP by contacting the Contact Person, or a designee.

#### e. Comments Received on the Draft Consolidated Plan

Written comments will be accepted by the Contact Person, or a designee, during the 30-day public display and comment period. The City will consider any comments or views of City

residents received in writing, or orally at the public hearings, in preparing the final CP. A summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final CP for submission to HUD.

#### f. City Council Action

Following the public display and comment period and the second public hearing, the CP will be presented to the City Council for consideration and formal action.

#### g. Submission to HUD

The CP will be submitted to HUD no less than 45 days before the start of the City's five-year program cycle, or at such time as instructed by HUD.

#### Revisions to the Consolidated Plan

The City shall follow the following procedure to revise its CP, as needed.

#### a. Revision Considerations

There are two types of amendments that may occur with the CP: minor amendments and substantial amendments. An amendment to the approved CP is considered substantial under the following circumstances:

- When a goal is added or deleted
- When there is a change in the priorities identified in the CP
- When the entitlement programs for which the City will receive a formula allocation change

All other changes that do not meet the criteria defined above will be considered minor amendments, will be reviewed and approved by the City's Real Estate and Housing Department and will not be subject to public comments. All amendments, substantial and minor, will be submitted to HUD via the Integrated Disbursement and Information System (IDIS).

#### b. Public Display and Comment Period

The draft Revised CP will be placed on display for a period of no less than 30 days to encourage public review and comment. The public notice shall include a brief summary of the revisions, the dates of the public display and comment period, the locations where copies of the proposed revised CP can be examined, how comments will be accepted, when the document will be considered for action by the City Council, and the anticipated submission date to HUD. Copies of the draft Revised CP will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the draft Revised CP by contacting the Contact Person, or a designee.

#### c. Comments Received on the Draft Revised Consolidated Plan

Written comments will be accepted by the Contact Person, or a designee, during the 30-day public display and comment period. The City will consider any comments or views of City residents received in writing in preparing the final Revised CP. A summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final Revised CP for submission to HUD.

#### d. Submission to HUD

Following the public display and comment period, the Revised CP will be submitted to HUD.

#### In the Event of an Emergency or Disaster

In the event of a local, state or federally declared disaster or emergency where public places may be closed to the public or in-person participation may not be feasible or large gatherings may be considered a public health risk, the City will conduct public hearings and meetings exclusively via virtual methods such as conference call or live web-streaming with the ability to ask questions in real time. Accommodations will be made for persons with disabilities and non-English speaking persons upon request, such as sign language or language interpretation services. Documents for public review will be shared via the City's website. Copies of the document may be mailed or e-mailed upon request.

Additionally, where program funds covered by this Plan may be expended to carry out eligible activities to address the City's disaster response, the City's requirements under this Plan will be streamlined to include:

- a. A 15-day public display and comment period to amend the CP or a period of public comment as outlined and directed by HUD.
- b. Following the public display and comment period, the Revised CP will be submitted to HUD.

#### Plan Access

The Revised CP will be kept on file at the Department of Real Estate and Housing, 800 N French Street,  $7^{th}$  Floor, Wilmington, DE 19801. The plan can be accessed online at:

https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the approved Amended Plan by contacting the Contact Person, or a designee.

# F. The Annual Action Plan (AAP)

The Annual Action Plan (AAP) is a component of the CP, and it describes the City's proposed use of available federal and other resources to address the priority needs and specific objectives in the CP for each program year; the City's method for distributing funds to local non-profit organizations; and the geographic areas of the City to which it will direct assistance.

#### Plan Development

The City will follow the process and procedures described below in the development of its AAP.

#### a. Public Hearings

The City will conduct at least two public hearings during the development of the AAP. The first public hearing will be conducted before the AAP draft is published for public comment, during which the City will address housing and community development needs, development of proposed activities, the amount of assistance the City expects to receive (including grant funds and program income), the range of activities that may be undertaken, including the estimated amount that will benefit low- and moderate-income residents, and a review of program performance.

The second public hearing will be conducted during or after the 30-day public comment period during which the City will address identified housing and community development needs and proposed eligible activities.

Both hearings conducted for the Year 1 AAP may be conducted concurrently with the required public hearings for the 5-Year Consolidated Plan.

#### b. Public Display and Comment Period

The draft AAP will be placed on display for a period of no less than 30 days to encourage public review and comment. The public notice shall include a brief summary of the AAP, the anticipated amounts of funding (including program income, if any), the dates of the public display and comment period, the locations where copies of the draft AAP can be examined, how comments will be accepted, when the document will be considered for action by the City Council and the anticipated submission date to HUD. Copies of the draft AAP will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the AAP by contacting the Contact Person, or a designee.

#### c. Comments Received on the Draft Annual Action Plan

Written comments will be accepted by the Contact Person, or a designee, during the 30-day public display and comment period. The City will consider any comments or views of City residents received in writing, or orally at the public hearings, in preparing the final AAP. A

summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final AAP for submission to HUD.

#### d. City Council Action

Following the public display and comment period and the public hearing, the AAP will be presented to the City Council for consideration and formal action.

#### e. Submission to HUD

The AAP will be submitted to HUD no less than 45 days before the start of the City's annual program year, or at such time as instructed by HUD.

#### Revisions to the Annual Action Plan

The City shall follow the following procedure to revise its AAP, as needed.

#### a. Revision Considerations

There are two types of amendment that may occur with the AAP: minor amendments and substantial amendments. An amendment to the approved AAP is considered substantial under the following circumstances:

- When an eligible activity is added or deleted
- When a change occurs in the purpose, location, or beneficiaries of an activity previously approved

All other changes that do not meet the criteria defined above will be considered minor amendments, will be reviewed and approved by the Director of the City's Department of Real Estate and Housing and will not be subject to public comments. All amendments, substantial and minor, will be submitted to HUD via the Integrated Disbursement and Information System (IDIS).

#### b. Public Display and Comment Period

The draft Revised AAP will be placed on display for a period of no less than 30 days to encourage public review and comment. The public notice shall include a brief summary of the revisions, the dates of the public display and comment period, the locations where copies of the draft AAP can be examined, how comments will be accepted, when the document will be considered for action by the City Council, and the anticipated submission date to HUD. Copies of the draft Revised AAP will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the Revised AAP by contacting the Contact Person, or a designee.

#### c. Comments Received on the Draft Revised Annual Action Plan

Written comments will be accepted by the Contact Person, or a designee, during the 30-day public display and comment period. The City will consider any comments or views of City

residents received in writing in preparing the final Revised AAP. A summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final revised AAP for submission to HUD.

#### d. Submission to HUD

After the end of the public display and comment period, the revised AAP will be submitted to HUD.

#### In the Event of a Disaster

In the event of a local, state or federally declared disaster or emergency where public places may be closed to the public or in-person participation may not be feasible or large gatherings may be considered a public health risk, the City will conduct public hearings and meetings virtually via conference call or live web-streaming with the ability to ask questions in real time. Accommodations will be made for persons with disabilities and non-English speaking persons upon request, such as sign language or language interpretation services. Documents for public review will be shared via the City's website. Copies of the document will be mailed or e-mailed upon request.

Additionally, where program funds covered by this Plan may be expended to carry out eligible activities to address the City's disaster response, the City's requirements under this Plan will be streamlined to include:

- a. A 15-day public display and comment period to amend the AAP or a period of public comment as outlined and directed by HUD.
- b. Following the public display and comment period, the Revised AAP will submitted to HUD.

#### Plan Access

The Revised CP will be kept on file at the Department of Real Estate and Housing, 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801. The plan can be accessed online at: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the approved Amended Plan by contacting the Contact Person, or a designee.

# E. Consolidated Annual Performance and Evaluation Report (CAPER) Report Development

The City shall follow the following procedure in the drafting and adoption of its Consolidated Annual Performance and Evaluation Report (CAPER).

#### a. Report Considerations

The City will evaluate and report the accomplishments and expenditures of the previous program year for its HUD programs and draft the CAPER in accordance with HUD requirements.

#### b. Public Display and Comment Period

The draft CAPER will be placed on display for a period of no less than 15 days to encourage public review and comment. Public notice of the display and comment period will be published in The News Journal no less than one day before the period begins with accommodation for persons with disabilities and non-English speakers in accordance with this Plan. The public notice shall include a brief summary and purpose of the CAPER, a summary of program expenditures, a summary of program performance, the dates of the public display and comment period, the locations where copies of the draft CAPER can be examined, how comments will be accepted, and the anticipated submission date to HUD. Copies of the draft CAPER will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the CAPER by contacting the Contact Person, or a designee.

#### c. Comments Received on the Draft CAPER

Written comments will be accepted by the City's Contact Person, or a designee, during the 15-day public display and comment period. The City will consider any comments or views of City residents received in writing in preparing the final CAPER. A summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final CAPER for submission to HUD.

#### d. Submission to HUD

The CAPER will be submitted to HUD within 90 days following the end of the City's program year.

## F. Section 108 Loan Guarantee Program

#### Development of Section 108 Loan Guarantee Application

Applications for assistance filed by the City for Section 108 Loan Guarantee assistance authorized under HUD regulation 24 CFR Part 570, Subpart M, are subject to all provisions set forth within this Plan. Such applications for Section 108 assistance may be included as part of the Consolidated Planning process, the Annual Action Planning process, or may be undertaken separately anytime during the City's program year.

Before the City submits an application for Section 108 loan guarantee assistance, the City will make available to citizens, public agencies and other interested parties' information that includes the amount of assistance the City expects to be made available (including program income), the range of activities that may be undertaken, the estimated amount that will benefit persons of low- and moderate-income, and any activities likely to result in displacement.

#### Public Display and Comment Period

The City will publish its proposed Section 108 loan application for review and comment. The public notice shall include a summary describing the contents and purpose of the application and listing the locations where the entire application may be examined. An application for Section 108 Loan Guarantee funding shall be made available for public review for a 30-day period prior to consideration and submission to HUD and may be done concurrently with the public review and comment process for the Consolidated Plan or Annual Action Plan.

Copies of the proposed Section 108 loan application will be made available for review at the following locations:

- Department of Real Estate and Housing: 800 N French Street, 7<sup>th</sup> Floor, Wilmington, DE 19801
- City of Wilmington website: https://www.wilmingtonde.gov/government/housing

Hard copies can be made available to those requesting the Section 108 loan application by contacting the Contact Person, or a designee.

#### Comments Received on the Proposed Section 108 Application

Written comments will be accepted by the Contact Person, or a designee, during the 30-day public display and comment period. The City will consider any comments or views of City residents received in writing in preparing the final application. A summary of these comments or views, and a summary of any comments or views not accepted and the reasons why, will be attached to the final application for submission to HUD.

#### Submission to HUD

Following the public display and comment period, the Section 108 Loan Application will be submitted to HUD.

## G. Complaints

Residents may register complaints regarding any aspect of the CDBG, HOME, ESG, and HOPWA programs by contacting the Contact Person, or a designee. All written complaints received will be addressed in writing within 15 days.

Residents wishing to object to HUD approval of the final Consolidated Plan, Annual Action Plan or any other documents identified in this Plan may send written objections to the HUD Philadelphia Regional Office at:

U.S. Department of Housing & Urban Development Philadelphia Regional Office The Strawbridge Building 801 Market Street, 12<sup>th</sup> Floor Philadelphia, PA 19107

Objections should be made within 30 days after the City has submitted any of the documents covered by this Plan to HUD. Any objections made will only be submitted to HUD for the following reasons:

- The applicant's description of needs and objectives is plainly inconsistent with available facts and data.
- The activities to be undertaken are plainly inappropriate to meet the needs and objectives identified by the applicant.
- The application does not comply with the requirements of the CDBG, HOME, ESG and/or HOPWA programs, or other applicable laws.
- The application's proposed activities which are otherwise ineligible under the program regulations.

Objections shall include both an identification of requirements not met and available facts and data.
