SYNOPSIS: This Ordinance authorizes the issuance of a General Obligation Bond (PFAS Phase IV Project), Series B of 2026-DWSRF (the “2026B Bond”), in an amount not to exceed \$30,000,000, which will be sold to the Delaware Drinking Water State Revolving Fund in order to (A) finance the installation and construction of equipment at the City’s Porter Plant to remove PFAS from the City’s water source, as set forth in the City’s capital budget for its Fiscal Year ending June 30, 2026, (B) pay administrative costs relating to such capital project, and (C) pay the costs of issuing the 2026B Bond.

FISCAL IMPACT STATEMENT: The Office of Management and Budget has reviewed and analyzed this Ordinance authorizing the issuance of the 2026B Bond, together with the related documentation provided by the State of Delaware. The 2026B Bond is authorized in an amount not to exceed \$30,000,000 for a term of twenty (20) years at an annual interest rate of 2.0%. Assuming the full authorized amount of \$30,000,000 is borrowed, upon completion of the project, \$7,546,995 in principal forgiveness will be applied through the Delaware Drinking Water State Revolving Fund program, resulting in a net repayable loan amount of \$22,453,005. Annual debt service payments (principal and interest), payable semi-annually, are estimated to be \$1,367,639 over the twenty-year repayment period. Over the life of the 2026B Bond, the City is expected to pay \$27,352,780 in total debt service payments, inclusive of principal and interest. In addition to debt service payments, the City will incur one-time bond issuance and financing costs of up to approximately \$7,000.
