SYNOPSIS: This Ordinance authorizes the issuance of a General Obligation Bond (Large Diameter Collection System Project), Series E of 2026-WPCRF, in an amount not to exceed $2,000,000 (the "2026E Bond"), which will be sold to the Delaware Water Pollution Control Revolving Fund in order to (i) finance the rehabilitation of large diameter (greater than 42 inches) sewer pipes along Rattlesnake Run, Shipley Run, and Interceptor E, via point repairs, replacements, and/or cured in-place pipe lining, to extend their service life, reduce the risk of failure, and improve the level of service of the sewer collection system, as set forth in the City's capital budget for its Fiscal Year ending June 30, 2024, (ii) pay administrative costs relating to such capital projects, and (iii) pay the costs of issuing the 2026E Bond.

FISCAL IMPACT STATEMENT: The Office of Management and Budget has reviewed and analyzed this Ordinance authorizing the issuance of the 2026E Bond, together with the related documentation provided by the State of Delaware. The 2026E Bond is authorized in an amount not to exceed $2,000,000 for a term of thirty (30) years at an annual interest rate of 2.0%. The interest rate during the disbursement period is 0%.

Assuming the full authorized amount of $2,000,000 is borrowed, annual debt service payments (principal and interest), payable semi-annually, would be $88,978 over the thirty-year repayment period. Over the life of the 2026E Bond, the City would pay $2,669,334 in total debt service payments, inclusive of principal and interest.

In addition to debt service payments, the City will incur one-time bond issuance and financing costs of up to $7,000, which are assumed to be capitalized and financed from the bond proceeds. All debt service payments and bond issuance and financing costs associated with the 2026E Bond will be paid from the Water/Sewer Fund.
